GREENLATINOS BLASTS THE PRESIDENT’S MASS DEPORTATION STRATEGY
Radical, Inhumane Enforcement Policies are Contrary to American Values

WASHINGTON, DC – Yesterday, the President’s Department of Homeland Security (DHS) [released a series of memos](#) detailing the enforcement procedures for the President’s executive orders on immigration and border security. **In reaction to the announcement, GreenLatinos issued the following statement:**

“Not only does the President’s actions toward immigrants signal a radical, inhumane, and ineffective departure from the enforcement policies of previous Administrations, it also runs contrary to American values. The President’s actions and statements are far from a comprehensive approach to immigration that would prioritize family unification and create a viable path toward a fair and just immigration system. Instead, President Trump and his Administration are resolute in their desire to waste taxpayer money on strategies that have been proven ineffective, that will demonstrably make communities across the country less safe, and are devoid of the values Americans hold dear: opportunity, family unity, and rewarding hard work and sacrifice. President Trump’s thinly veiled mass deportation strategy is shameful.”
