STAND UP FOR WHAT MATTERS

ROBIN SAYS...

“I live locally with my wife and children, work as a musician and run a renewably-powered music festival called Wood. Henley constituency contains many who are passionate about the countryside, run sustainable businesses, and hope to leave a habitable planet for their grandchildren. I feel very strongly about Brexit and its ramifications for young people, our environment, and the tone of our country. Every Green vote strengthens our movement and weakens the hand of those seeking a hard Brexit removing laws that protect our children and the natural world.”

THIS ELECTION ISN'T ABOUT THE NEXT 5 YEARS. IT'S ABOUT THE NEXT 50 YEARS.

The Green Party is offering real opposition to this Government's extreme Brexit. Only the Green Party has the vision to deliver an alternative future for our country, and our place in the world. And only the Green Party offers a different kind of politics.

Every Green vote on 8th June will **help make that vision a reality.**

To shape an economy for everyone while preserving a safe environment. To build affordable homes and provide properly funded public services. And to put power back in your hands through a citizens' democracy.

If you agree with us, stand with us. The Conservatives think they have this election sewn up. But it's in your hands. Stand with us for housing, schools, our NHS, our environment, and our future. We stand up for what matters. **Vote Green Party on 8th June.**
