Please direct questions regarding this petition to office@greenparty.bc.ca or 1-888-473-3686 ext. 0.

Petition regarding BC's LNG industry expansion

To the Honourable the Legislative Assembly of the Province of British Columbia, in Legislature Assembled:

The petition of the undersigned, residents of the Province of British Columbia, states that:

Whereas it is uneconomical in today's global market to establish an LNG industry in BC;

Whereas the BC Liberals plan to tie the hands of future governments, preventing them from making changes to royalty rates, carbon tax rates and natural gas tax credits;

Whereas under this plan, British Columbia will not only miss its legislated greenhouse gas reduction targets, but dramatically increase its greenhouse gas emissions and impact on climate change;

Whereas there are numerous opportunities for BC to grow its creative and resource economies through the creative economy, high-tech industry, renewable resources and tourism;

Whereas the BC Government has a responsibility to put the interests of British Columbians ahead of their own political interests;

Your petitioners respectfully request that the BC Liberals end their singular focus on LNG, withdraw from the generational sellout embodied in the proposed Project Development Agreement with Petronas and instead move toward supporting a diversified and resilient 21st century economy in British Columbia.

Dated 8th day of July, 2015.
