

Voter Instructions

1. Identify Ballot

Put your name, phone number, email address on the ballot. This ballot will be saved by the Green-Rainbow Party.

Please do not put anything in the upper right hand corner after the words "Ballot Number" nor anything after the words "Rank In Use". Both of these areas are for use by the people who will be counting the ballots.

2. Choose Candidates

Decide which of the candidates you think would do a good job on the State Committee. Your region will have at least one female and one male representative to the State Committee. No matter how many representatives to the State Committee your region may have, you can choose from as little as one to up all the candidates that are running. The more candidates that are elected from your region the better the representation. So the general rule of thumb is to rank as many candidates that you find as acceptable. The choice is up to you.

3. Rank Candidates and Mark Ballot

For those candidates that you will vote for, you must then decide on a preference order, or ranking, for each of the candidates. You should rank the candidates you are voting for based on who in your opinion would be the best of them all ranking them 1, the next best ranking them 2, and so on until you have ranked all the candidates you are voting for. As you decide the ranking, fill in the name of the candidate next to the ranking on your ballot.

4. Return Ballot

Hand in your ballot when you are done.

Notes about STV PR

Don't worry about strategic voting: just vote for who you want. If a candidate is not popular enough, your vote will move on to your next choice; if they're so popular they're already elected, your vote may move on to your next choice.
