Diversity Self Identification_____

Note about Diversity Self Identification: The Green-Rainbow's goal is a diverse body of representatives in our own party as well as in our elected government. To this end, we self monitor our own diversity and can appoint additional Diversity Representatives to the State Committee if the elected representatives diversity is not up to the goals we set. To assist our party it is helpful if you tell us what diversity aspects you self identify with. This can be race, national origin, LGBT, etc. Thank you for helping us keep our party diverse.
