

***Friend with your help we did it again!***

Last night we achieved our second goal of 2500 petition signers!

Georgia Right to Life (GRTL) has gathered evidence that abortion facilities across Georgia continue to do business as if there is no public health emergency, enabling community spread of the disease as well as consuming precious medical resources needed by health care workers to treat victims.

**Friend this is coverage you won't see in the major media!** Here's the link if you didn't see it yesterday: [Abortion Facilities Busy: Pictures & Testimony](#). Forward this to your friends and urge them to [sign the online petition](#) today!

Saturday morning I joined DeKalb County Right to Life chapter president Dan Segal at the Feminist Women's Health Center (FWHC). Tyrone Malloy and two other abortionists showed up to do the killing of children that morning.

**The FWHC website states that they are open and “offering all our abortion care services on a regular schedule.** We are rescheduling all elective wellness and GYN services until mid-April as per the latest guidance from the Center for Disease Control and National Abortion Federation.”

In my [last update to petition signers](#) I noted how former abortion facility director Abby Johnson used events to pressure-sell abortion services. As I suspected FWHC's COVID-19 page does the same: **“Please do not postpone needed healthcare, especially abortion services, as delaying abortion care increases**

**risks and costs.”** Some of the women we saw were visibly pregnant, meaning they were there for a surgical abortion. Yet the federal government's [Adult Elective Surgery and Procedures Recommendations](#) doesn't include elective abortion in the “Do not postpone” tier.

So for the reproductive justice warriors at FWHC “abortion care, no matter what” means even risking the public's health while they implement hygienic and screening protocols to give the appearance of legitimacy.

***Governor Kemp and Attorney General Carr have the legal authority during the public health emergency to stop this now!***

[Texas Attorney General Ken Paxton stated:](#)

**“We must work together as Texans to stop the spread of COVID-19 and ensure that our health care professionals and facilities have all the resources they need to fight the virus at this time... No one is exempt from the governor's executive order on medically unnecessary surgeries and procedures, including abortion providers. Those who violate the governor's order will be met with the full force of the law.”**

In Texas failure to comply with an executive order issued by the governor related to the COVID-19 disaster can result in penalties of up to \$1,000 or 180 days of jail time.

*We need more people to urge our Governor and Attorney General to take this kind of bold, courageous action to protect the public's health – including the lives of preborn Georgians. Delivering boxes of signed petitions to the Governor's office this week from thousands of Georgians would be a powerful show of support right now! With your support Friend we can help save COVID-19 patients and preborn boys and girls. Please forward the "thank you" email you received upon signing the petition.*

**Or tell friends, family, folks at church, co-workers, etc. to text “COVID19” to (404) 738-6598.** Encourage them to join you in urging Governor Kemp and Attorney General Carr to order the closure of all abortion facilities in Georgia during this public health emergency.

Standing together with you for life,

Friend Davis, President  
*Advancing Personhood - The Paramount Right to Life*  
Georgia Right to Life

**P.S. Governor Kemp's ability to shut down abortion facilities like FWHC is only available during the public health emergency.** Friend we must act quickly so that the FWHC website will read ***“Per order of the Georgia Department of Public Health all abortion care services have been halted until further notice.”*** Urge your friends and family to sign at [GRTLPetitions.online](https://www.grtl.org/petitions) today!

**P.P.S. Many thanks to those who forwarded their "thank you for signing" email to pro-personhood supporters across the state. You can see your impact on our [Petition Leaders](#) page.**
