**Rooftop by rooftop, communities across Queensland are nudging our sunshine state towards a sun-powered future. In fact, Queenslanders are world leaders at harvesting sunshine!**

But right now, too many people don't have access to clean energy. They are being left behind with dirty old energy that's damaging our climate, harming our communities and impacting our Reef. In 2016 a record breaking underwater heatwave killed 22% of the Great Barrier Reef. The mining and burning of fossil fuels is the leading cause of global warming.

**We call on the Queensland Government to:**

- Make our renewable energy target law
- Phase out coal-fired power
- Help people who work in affected industries and their communities prepare for jobs for the future
- Deliver large-scale clean energy projects across our state

**The sun-powered Queensland pledge is supported by**

350.org Australia, Australian Conservation Foundation, Australian Marine Conservation Society, Energetic Communities, GetUp, Queensland Conservation Council and Solar Citizens.

**MY ORGANISATION/BUSINESS WOULD LIKE TO:**

- Provide our logo for inclusion on the Sun-Powered Queensland website
- Display a poster at our shopfront or office
- Talk to other organisations about the Sun-Powered Queensland pledge
- Display a Sun-Powered Queensland badge on our website and social media
- Provide a quote or message of support for inclusion on the Sun Powered Queensland website
- Be contacted by media in relation to renewable energy
- Sign me up to the email list to find out how we can support renewable energy in Qld

If you have ticked any of the boxes above we will be in contact to deliver your materials.

Thank you for your support!
