

I LOVE

A SUN-POWERED QUEENSLAND!

**TOGETHER, LET'S MOVE QUEENSLAND INTO
THE CLEAN ENERGY FUTURE.**

Rooftop by rooftop, communities across Queensland are nudging our sunshine state towards a sun-powered future. In fact, Queenslanders are world leaders at harvesting sunshine! But right now, too many people don't have access to clean energy. They are being left behind with dirty old energy that's damaging our climate and harming our communities.

We know we need to cut pollution and shift to clean energy, fast. To make this happen – and enable everyone, everywhere, to power their lives with clean energy – our government must step up and lead. We call on the Queensland Government to commit to an ambitious renewable energy target, phase out coal-fired power and invest in large-scale clean energy projects across our state.

**SUN-POWERED
QUEENSLAND**

The logo for Sun-Powered Queensland features a stylized sun icon on the left, composed of several short, radiating lines. To the right of the icon, the words "SUN-POWERED" and "QUEENSLAND" are stacked vertically in a bold, white, sans-serif font.
