

PART ONE: Short-Answer Questionnaire
(Please limit responses to 5 sentences or 100 words)

1) Please describe your qualifications for the position you seek. Feel free to add anything else that you'd like our members to know about you and your candidacy.

2) Do you have any key endorsements you'd like to share?

3) More than 7,000 individuals are experiencing homelessness in San Francisco. Due to the physical and mental trauma inherent to living without stable housing, these individuals suffer from increased health problems and are three to four times more likely to die prematurely than their housed counterparts.

What do you see as the most important short-term and long-term solutions to the homeless crisis in San Francisco? What can you do in the office you are running for to help end homelessness?

4) What are your priorities and plans to address housing affordability and economic inequality in San Francisco? What have you done on this in the past?

5) Describe your philosophy and priorities for developing a legislative framework for recreational marijuana. Do you agree with the current framework adopted by the Board of Supervisors? What would you change, if anything?

6) The African American population in San Francisco is steadily declining. The racial bias of our police force and criminal justice system is well documented. SFUSD's achievement gap for African Americans students is the highest in the country as of 2017.

What do you think are the most important actions that you can take in your office to stabilize and support the African American community in San Francisco?

7) How have you support the LGBTQ community and how will you continue to do so if elected?
