

**Platform Proposal**

**March 6, 2018**

**Caucus**

**Precinct #: \_\_\_\_\_**

**Health care is a human need, and as such it deserves to be fully publicly funded.**

We support and demand a national **Improved, Expanded Medicare for All**, which would provide comprehensive health care for everyone from birth to death and eliminate personal medical debt and medical bankruptcies. All would pay fairly according to their ability and receive care according to their needs.
