

HCCA AGM 2021

Cliftonwood Town Green Report

The Town Green has provided a haven of peace during last year's lockdown. It has also been a meeting place for socially distanced outdoor meetings where we can also enjoy nature in the heart of our community.

We have had residents quietly working on the garden, and in the Spring a vegetable garden was created with beans, courgettes, and tomatoes amongst herbs and geraniums.

A working party in early Summer replaced the steps down to the Wendy house and the struts on the summer house supporting the green roof. We do need another working party this Autumn to tame the euphorbia plants which are threatening to take over in the garden.

Leona did some work with hedgehogs and established with a camera that despite providing a good feeding station, none were tempted to use it!

Ambra Little Library was established in the summerhouse where there is now a selection of both adult and children's books for use and exchange. There are plans to use the noticeboard in the summerhouse to list recommended workmen/women for different trades.

We participated in [Clifton's Green Squares and Secret Gardens](#), and were given £80 as a share of the profits from this. With this money, we purchased a fire bowl for use in the garden, only under supervision.

We will shortly hold a meeting of all those interested in helping in the garden in any way. All those interested in attending should contact me, carol.lilwall@gmail.com
