

Argyle Place

New access into park
and ramp down to
new sitting area

Tigermulch under
existing tower -
installed without
concrete edging to
avoid tree roots and to
blend into slopes

Kickabout area:
stripped topsoil
mixed with Bideford
Grit and spread over
existing de-
compacted soil. The
grit will add soil
structure and
improve drainage.
Seeded and fenced
off until grass
established.

Basket swing & bars
on small flat terraces,
with wet pour rubber
crumb underneath
