

**Liz Rosetti**  
**for**  
**Flemington Borough Council**

My husband and I chose to make Flemington our home and to raise our daughter here. I love the safe and walkable neighborhoods, excellent school system, beautiful historic homes, and accepting and inclusive environment.

Thanks to a full scholarship to Ramapo, I was the first in my family to graduate college. I majored in Biology, and have worked in environmental education, research & development and quality control for consumer and industrial products, as well as at Hunterdon Medical Center. More recently I have switched gears, and work as a substitute teacher in our local school district to make sure I have more time for our daughter.

Flemington has the potential to grow, and it is what has inspired me to run for Borough Council. I've never forgotten how hard I've worked to get where I am, and want to bring that determination, work ethic and strong team player skills to Borough Council. Together, we will create a fantastic community for all of our families.

I chose Flemington, and I hope Flemington will choose me.
