

**Ken Davis**  
**for**  
**Raritan Township Committee**

I am running for Township Committee to give voters a new voice in local leadership. I am running to improve the transparency of Township operations, to develop supports for older residents, to protect our town's natural resources and expand recreation opportunities. I want to make local government more meaningful in our day to day lives.

I have spent my career making public health and welfare data more accessible to government decision makers and consumers, where success is measured through adoption and customer satisfaction. I will bring this same approach to municipal government by encouraging residents to share their needs and expectations with the Committee, providing progress updates on Township projects and initiatives, and inviting residents to share their feedback on our performance.

- Lived in Raritan Township for 24 years
- Healthcare IT Solutions Architect at [Mathematica Policy Research](#) in Princeton, specializing in Medicaid data warehousing
- Master's in Public Health and BS in Biology, both from Rutgers University
- Current President of Board of Trustees of [Volunteer Guardianship One on One, Inc.](#), in Flemington. Board member for past 3 years, volunteer guardian for two adults between 2009 and 2015, and website developer
- Catholic Charities Mentor, Flemington, from 2000 - 2006.
- Married, 3 daughters (22, 20, and 14) all attended Flemington/Raritan and Hunterdon Central High School
- Marathon runner, love biking through Hunterdon County, gardening, hiking, skiing...just about anything outdoors
