

As you may know, back in April 2020 New York State passed Executive Law Section 94-c, which is a new permitting process for renewable energy projects. The full text of this law can be found on the Office of Renewable Energy Siting website (www.ores.ny.gov). In the coming weeks, Heritage Wind plans to transition from the Article 10 permitting process to Section 94-c. Heritage Wind will hold a virtual public information meeting to provide information on Section 94-c and what it means for the project and the community. Please see below for more information.

Heritage Wind Virtual Public Meeting

Date: December 10, 2020

Time: 6 pm – 7:30 pm, EST

An hour and a half-long webinar for a Public Meeting for Heritage Wind will occur on Thursday, December 10, 2020 from 6 pm to 7:30 pm to provide a project update and information on the Section 94-c permitting process. Written questions from attendees will be submitted via a chat feature and answered verbally.

www.heritagewindpower.com/94cmeeting

To access the webinar, participants must log in using their unique participant link and/or audio PIN that will be sent to them upon registration. For anyone who is not able to register via the link provided, please call the Heritage Wind Office at (585) 563-5137.

Additional information regarding Section 94-c, including materials from the virtual public information meeting, will be made available on Heritage Wind's Project Website (www.heritagewindpower.com/94cmeeting).
