

2012-2013 Mini Grants Awarded:

In April 2012, HFEE received more than 20 applications for our 2012-2013 Mini-Grant Program throughout the Holmdel schools from teachers and students. In June 2012, we were proud to announce that 12 grants were approved and distributed, totaling \$11,165, to fund exciting initiatives at each of our schools. Some of our projects to be funded during the 2012/13 school year include a 7th grade Weather Station for Satz classrooms, Tumble Book program at Village School, and infusing technology into the Health and PE programs at the High School. We invite you to consider applying for a mini grant. Please look for our 2013-2014 mini-grant program applications which will be posted in January 2013.
