

The Mary Dillon Memorial Fountain in Klutho Park

The beautiful fountain initially placed in the then Springfield Park in 1910 in memory of the club’s founder and restored by SIAA in 2006 is an important part of the neighborhood’s history and adds beauty to the park. To help with the maintenance costs we sell bricks and extend the current memory path around the fountain’s base. Thank you for your kind help and donation.

Bricks are \$50 each. Please use a separate form for each order.

Because all bricks are customized, all orders are final, so please double-check your spelling.
