Camden Council

Re: 2018/3478/P, 28 Willoughby Road

Dear Ms. Smith,

The Hampstead Neighbourhood Forum supports the proposal to erect a plaque to Christopher Wade and have no issue with the widening of the entrance.

The proposal to install six wall mounted lights, however, is excessive and contrary to the Hampstead Neighbourhood Plan NE4 (1a): *In order to enhance biodiversity, development proposals will be encouraged to: use restrained exterior lighting in low blue content white or yellow light only.* No information is provided about the type of bulb that will be used or the spread of light that might affect the amenity of neighbour's. A neighbour's bedroom window is just feet away from one of the proposed lights.

We would urge a reconsideration of the lighting scheme.

Sincerely,

Janine Griffis
Chair, Hampstead Neighbourhood Forum
