Dear Friends and Colleagues,

It is a great pleasure to welcome you to the “Excellence in Paediatrics 2010” conference in London.

This is the second of a series of annual international conferences established by Wiley-Blackwell, publishers of many of the world’s leading scientific journals and textbooks. The objective of its scientific committee, largely drawn from amongst Wiley-Blackwell journal editors, is to provide the latest, most authoritative overview of key developments in paediatrics.

This week’s conference is aimed primarily at general paediatricians from all over the world, but I believe it also offers a great opportunity to sub-specialists, family practitioners, and allied health professionals interested in child health to update their knowledge.

We are joined by internationally renowned speakers from more than 20 countries who will discuss the latest findings in child health in over 50 sessions including lectures, round tables, debates and interactive and meet-the-experts seminars.

Special sessions have been devised by our sponsoring centres of excellence, including the Cochrane Child Health Field, EPA/UNEPSA, Children’s Hospital, Boston & Harvard Medical School, Karolinska Institute, Royal College of Paediatrics & Child Health, University Hospital of Paediatrics & Adolescent Medicine, Vienna, European Society of Paediatric Gastroenterology, Hepatology & Nutrition and the European Society for Paediatric Infectious Diseases.

The scientific programme is complemented by poster sessions featuring all accepted abstracts. The 12 best submitted abstracts have been offered oral presentation and will receive “Excellence in Paediatrics Awards”. The Abstracts will be published as a supplement to Acta Paediatrica.

I wish you a fruitful and enjoyable stay in London and hope that our efforts will exceed your expectations.

Best wishes,

Dr Harvey Marcovitch
Honorary Fellow, Royal College of Paediatrics & Child Health
Editorial Board member, Acta Paediatrica
Chairman of the “Excellence in Paediatrics” Scientific Committee

**Language**
English is the official language of the Excellence in Paediatrics Conference. No interpretation is available.

**Badges and Material**
Name badges and the conference material will be provided on-site, at the Conference Secretariat, to all registered delegates from 2 to 4 of December. It is necessary for all participants to wear their badges both in the Conference and in the Exhibition Area.

**Book of Abstracts**
Abstracts of invited speakers, oral and poster presentations will be published as a supplement in the Journal *Acta Paediatrica*

An electronic version of the Book of Abstracts will be available online from Thursday, 2 December 2010 on the homepage of the conference’s website: www.excellence-in-paediatrics.org

**Certificate of Attendance**
A certificate of attendance will be issued to all registered delegates. Delegates can collect their certificate at the Conference Secretariat upon completion of the conference evaluation form.

**Continuing Medical Education (CME)**
Excellence in Paediatrics is accredited by the European Accreditation Council for Continuing Medical Education (EACCME) to provide the following CME activity for medical specialists. The EACCME is an institution of the European Union of Medical Specialists (UEMS – www.uems.be).

Excellence in Paediatrics is designated for a maximum of 18 hours of European external CME credits. EACCME credits are recognised by the American Medical Association toward the Physician’s Recognition Award (PRA).

To convert EACCME credit to AMA PRA category 1 credit, contact the AMA (www.ama-assn.org).

**For UK participants**
Paediatricians attending this event may claim up to 18 Clinical External CPD credits, in accordance with the current Royal College of Paediatrics & Child Health CPD guidelines.

EACCME credits are recognised by the Royal College of Physicians (London, Glasgow and Edinburgh).

**First Aid**
First aid is provided on site. In case of emergency, please notify the Conference Secretariat.

**Liability and Insurance**
Delegates are advised to arrange health and accident insurance before traveling to the meeting. The Conference Organisers cannot accept liability for personal injury or loss/damage to property and belongings of delegates during the meeting or their stay in London.

**Mobile Phones**
Delegates are kindly requested to switch off their mobile phones during the conference sessions.

**Programme Changes**
Due to circumstances beyond the control of the Conference Organisers, last-minute changes to the programme may be unavoidable. All information included in this programme is accurate until the day of printing, 15 November 2010.
Conference Highlights

- Excellence in Paediatrics 2010 is the second in a series of annual international conferences in the field of paediatrics, presenting the latest, most insightful and authoritative overview of key developments in paediatrics by outstanding speakers.
- It is organised in association with Wiley Blackwell, one of the world’s leading society-based publishers.
- The programme has been developed by a world class scientific committee including editors of 28 Paediatric journals published by Wiley Blackwell.
- The European Paediatric Association EPA/UNEPSA and the Cochrane Child Health Field have been involved in the development and delivery of one thematic stream (nutrition in 2009 and respiratory medicine in 2010).
- International Centres of Excellence in Paediatric Care such as the Harvard Medical School, Boston Children’s Hospital, University of Vienna, the Royal College of Paediatrics and Child Health and Karolinska Institute have also contributed to the scientific programme of this event.
- The European Society for Paediatric Infectious Diseases (ESPID) and the European Society for Paediatric Gastroenterology Hepatology and Nutrition (ESPGHAN) are organising special sessions in the context of the Conference.
- The participation of over 100 internationally renowned speakers from all over the world guarantees the promotion of excellence in the field of paediatrics.
- The inaugural conference drew delegates from 74 countries. The 2010 edition is anticipated to draw approximately 1,500 paediatricians, GPs and allied health professionals from all over the world, eager to learn about new developments and engage in educational debate.
- Excellence in Paediatrics received the “highly commended” distinction in the category for the Best New Conference Launch at the 2010 Conference Awards.

The cost of attendance for each workshop is 25€. The total revenue income generated by the workshop registration fees will be donated to KEEP A CHILD ALIVE in view of the World Aids Day (1 December).

KEEP A CHILD ALIVE is a registered 501(c)3 charity in the US dedicated to providing life-saving anti-retroviral treatment, care and support services to children and families whose lives have been affected by HIV/AIDS in Africa and India. So far, KEEP A CHILD ALIVE has been able to provide first class AIDS care and support care for orphans and food with a healthy dose of love and respect to 250,000 people. To learn all about KEEP A CHILD ALIVE please visit www.keepachildalive.org. Register today, to be an essential part of the Excellence in Paediatrics 2010 initiative against AIDS.
Information for Speakers, Oral & Poster Presenters

Audiovisual Equipment
A Speakers' Ready Room will be operating throughout the duration of the Conference. Speakers are kindly requested to hand in their presentation (USB-key, CD-ROM, DVD) at least one (1) hour before their scheduled presentation time. If your presentation is scheduled early in the morning, you are kindly requested to check your presentation at the Speakers' Ready Room the day before. All versions of MS PowerPoint are accepted, including Mac. If you are using embedded video clips in your presentation, please remember to submit video files separately. The following equipment will be available:
- PC
- Data video projector (PowerPoint presentations)

Oral Presentations
If you are presenting an oral podium presentation, you are kindly requested to observe the following points:
- Please declare any relevant links to industry or other conflicts of interest at the beginning of your presentation.
- Please speak slowly and clearly. English is the working language of the Conference, but not necessarily the native language of the delegates.

Poster Presentations
For Posters to be exhibited, please note the following:
- The necessary material for displaying the posters will be available in the poster area.
- Poster panel numbers will be displayed at the top of the panels.
- The corresponding poster panel number for each poster presented has been provided by the Conference Organisers, along with abstract presentation guidelines.
- Mounting and dismounting of posters will be done as specified in the information already sent to poster presenters by the Conference Organisers.
- Please note that posters should be 80 cm (width) x 190 cm (height) maximum.
- As a courtesy to other presenters, participants are kindly requested not to move or remove poster numbers or change the order of the assigned poster boards.
- It is essential that presenters clear their poster board promptly and within the scheduled time. Material left on a poster board after the removal deadline will be discarded.
- The Conference Organisers are not responsible for materials left behind and any other that is stolen or damaged.

About London

The City of London is one of the most beautiful and interesting places to visit on our planet. From its many awe-inspiring museums to its lovely parks and gardens, London is a delight. It is the capital of England and the United Kingdom, the largest metropolitan area in the United Kingdom and has been a major settlement for two millennia. London is one of the world’s foremost financial, commercial, industrial, and cultural centres. Major cultural institutions include the British Museum, National Gallery, Tate Gallery, Tate Modern, and the Victoria and Albert Museum. Among its landmarks are the remains of the city’s Roman walls, Buckingham Palace, the Houses of Parliament, the Tower of London, Trafalgar Square, and Westminster Abbey to name but a few.

Taxis

London’s classic black cabs also come decorated in a dazzling palette of colours these days. Black cabs can be hailed in the street or at designated ranks situated in prominent places, including many mainline rail, Tube and bus stations. They can also be booked by telephone (Transport for London – TfL – on 0845 300 7000) or picked up off the street.

Credit Cards

Most major credit cards are accepted in restaurants and shops.

Currency and Exchange

The national currency of the United Kingdom is the Pound. Exchange can be secured from local and exchange offices, which usually charge a commission fee. Banks are open Monday to Friday from 09.30 am to 16.30 pm. Some branches open on Saturday 09.30 - 12:00 and others offer extended opening hours.

ATM

ATMs are located all around the city.

Telecommunications

The international access code for the United Kingdom is +44. The outgoing code is 0 followed by the relevant country code (e.g. 001 for the USA or Canada). Public payphones are available throughout the city. For information concerning mobile phone use in the United Kingdom (telephone transmissions are based on GSM technology), please ask your provider.

Time

United Kingdom is GMT/UTC 0. London 12.00 – New York 07.00 – Sydney 21.00.

Climate

In December, London has an average high temperature of 7°C and an average low temperature of 1°C.

Bionorica SE is one of the leading companies in the area of phytopharmaceuticals and is marketing products with proven efficacy, safety and quality in 50 countries worldwide.

The product range focuses mainly on diseases of the respiratory tract, urinary tract, gynaecological disorders and on medications for the treatment of pain. Bionorica’s know-how in phytotherapy has grown in nearly 80 years and the company’s development of rational herbal medicinal drugs can be compared to the standards of chemically synthesised drugs.

One main focus of our work is the research, development and marketing of plant based medicines for the treatment of children with respiratory and urinary tract infections. The products of Bionorica are prescribed and recommended by physicians and are sold exclusively in pharmacies.

Bionorica is committed to its “phytoneering principle”. Phytoneering stands for deciphering the active principles in botanicals (PHYTO) using innovative technologies (engNEERING) to research, develop and manufacture most effective phytopharmaceuticals. - The entire complex process from the development of appropriate seed material to the production of the final pharmaceutical product has to be scientifically standardized and thoroughly controlled.

These essential steps include appropriate plant harvesting and drying methods, an optimized extraction process, the development of effective galenics and an innovative packaging technology for the final products.

In addition comprehensive preclinical and clinical studies have to be performed to assure efficacy, safety and quality of plant based medicines for the treatment and prevention of diseases.

Bionorica has established an impressive network of scientists working in about 450 renowned universities, institutions and organisations worldwide.

With products such as Sinupret®, the most sold plant based cold and cough remedy in Germany, Bionorica generated a net turnover 140 million Euro in 2009.
