

Ariane de Vienne

Ariane de Vienne is Global Head of Asset Owner Strategy at Institutional Shareholder Services (ISS). She is leading a global mandate to deepen ISS' relationships with asset owners and consultants across ISS. She also leads the US Sales team focused on asset owner client relationships, and continues her work on the ISS ESG leadership team. Previously, Ariane was Head of ESG Strategy Americas, and part of the leadership team establishing ISS ESG as the leader and gold-standard in the responsible investment industry. Ariane joined ISS via the acquisition of oekom research in March 2018. Having begun her banking career in Germany, Ariane gained extensive experience with her own impact and ESG consulting businesses in Hong Kong and New York. Prior to that she was Managing Director at Guggenheim Investment Advisors LLC and served as Senior Vice President at David J. Greene and Company as well as in several Managing Director roles at JPMorgan Chase, leading multi-disciplinary teams. Ariane serves on the Board of Directors of several non-profit organizations focusing on social impact as well as ecological issues, including the US Board of The Climate Group. She is also an Ambassador to TBLI, a Dutch-based organization dedicated to raising awareness about the benefits and opportunities of ESG and impact investing.
