Please bring a vegetarian or vegan dish to share or make a small donation!

Inhabit explores the many environmental issues facing us today and examines solutions that are being applied using the ecological design process called "Permaculture". Permaculture is a design lens that uses the principles found in ecosystems to help shift our impact from destructive to regenerative. Focused mostly on the Northeastern and Midwestern regions of the United States, **Inhabit** provides an intimate look at permaculture peoples and practices ranging from rural, suburban, and urban landscapes.

Director: Costa Boutsikaris, Adventure/Documentary 1h 32m
