Earth Day Sermon Helps

These have some good starting points for an Earth Day Sermon:

**Catholic Climate Covenant** - [Earth Day Homily Helps](#)

**Creation Justice**
- [The Fierce Urgency of Now](#)
- [Earth Day Ideas to reflect upon](#)

**Earth Day Network** - [Faith Leader’s Toolkit](#) on Biodiversity loss and preservation of wildlife habitat.

Although it's an Earth Day sermon preached in 2015 it's got some great points preached in an Episcopal church by a watershed management specialist on faith-based bioregional thinking!

A very good Earth Day sermon at an Episcopal church by an environmentalist.
