Supporting a neighborhood school is more than student education. It is also helping to sustain and improve the community. Schools like Jahn School of Fine Arts, a Chicago Public Schools (CPS) Magnet Cluster elementary school is **depending on businesses like you** to invest with us in our students and the community. We hope you will consider being part of it this year with a silent auction donation or as a sponsor for the 6th Annual North Pole on Saturday, December 14.

The North Pole is one of our four cornerstone community events to benefit the students of Jahn each year. The money raised at these events is critical to ensure we can continue to offer the quality programs and resources that make our school the robust environment it is today.

Successful schools are directly related to the additional funding raised through parent-led organizations like Friends of Jahn (FOJ). Over the past year, FOJ has raised nearly \$105,000 from parents and the community; our goal is to increase this total to \$130,000 in the 2019-2020 school year. The funds raised by FOJ will continue to **help sustain a Fine Arts curriculum or the greatest educational need** for our students – including but not limited to – improving reading and math growth.

Our students need you. With a growing student body and local community, I hope **we can count on your support** this year. North Pole is a great opportunity for more than Jahn families to come together – it's a holiday celebration to share with our community.

We are grateful for your consideration to deepen your commitment to community and investment in the development of Jahn students. For more information about FOJ, please visit our website at www.friendsofjahn.org or feel free to reach us directly by email at info@friendsofjahn.org.

Warm regards,

Kelly Vincent
Chair, Friends of Jahn

Friends of Jahn is a registered 501(c)(3) not-for-profit charitable organization with the Employer Identification Number (EIN) 46-5166673. All donations are tax deductible to the extent allowed by law.
