

# GLEBE ISLAND MULTI-USE FACILITY

---

*To the Honourable Speaker and Members of the Legislative Assembly in NSW, the petition of the people of New South Wales brings to the attention of the House:*

**The NSW Port Authority have proposed a multi-use facility on Glebe Island to bring building materials into Sydney by sea. While most local residents support some form of working harbour, the proposed multi-use facility will intensify industrial activities in the area, operating 24/7 and bringing constant noise, air pollution and truck movements to the area.**

*The undersigned petitioners therefore ask the Legislative Assembly to call on the Government to reconsider their current plans to turn Glebe Island into a multi-use facility. While we support some form of working harbour at White Bay, it's not reasonable to expose our neighbourhood to heavy ship and truck movements 24 hours a day, seven days a week. The undersigned petitioners urge the government to pursue a use for Glebe Island that mitigates the impacts on our community.*
