Jan Perry for Los Angeles County Supervisor**

Los Angeles, Calif. (May 29, 2019) – Former Mayor of Culver City Jim Clarke today endorsed former Los Angeles City Councilwoman Jan Perry’s campaign for the 2nd District’s next Supervisor. Clarke served on the Culver City Council for six years and has a distinguished record of public service that includes serving as the executive director of the Clean Money Campaign, Chair of the LA County Democratic Party and Secretary of the California Democratic Party.

“As director of federal relations for Mayor Antonio Villaraigosa I had the privilege of working with Ms. Perry on a regular basis and what I most respect about her is that she is willing to take bold and innovative approaches to public policy,” said Mayor Clarke. He continued, “In Culver City we achieved great results by letting creativity and confidence guide our decisions, so Jan is the right person to represent us on the Los Angeles County Board of Supervisors.”

Culver City is known nationally for its transformation from a sleepy bedroom community to a place with a bustling creative and culinary scene. Clarke served on the City Council from 2012 -2018 and as Mayor from 2016-2017.

“I’m proud to have the endorsement of Jim Clarke, his dedication to community service is exemplary and he is one of the brightest government officials I know”, said Perry. “I admire his work and will do all I can at the County level to promote the types of policy that create vibrant neighborhoods and support working families and small businesses in Culver City.”

From July 2013 to December 2018 Perry served as the general manager of the City of Los Angeles Economic and Workforce Development Department (EWDD) where she oversaw a

broad range of programs offering assistance to business, job seekers and disconnected youth. During her tenure, the department enrolled approximately 91,000 people in its training and placement programs. Currently, she serves as the executive director of the Infrastructure Funding Alliance, a national initiative to meet future infrastructure, economic development and environmental challenges.
