## JILL AND CHERI SAY:

Stop wasting trillions on Wall Street, war, and tax giveaways for the wealthy. Make our economy work for everyday people.

### End unemployment by investing in green jobs.

Jill's proposal creates *eight times* more jobs than the White House plan, and ends the recession.

**End bailouts that gave \$12 trillion in cash and free loans** to the Wall Street institutions that crashed our economy. Put a moratorium on foreclosures. **Break up the big banks** to prevent future trillion dollar bailouts. Support state and community banks that **invest in small businesses**. And rewrite the Bush/Obama "free trade agreements" that sent 6 million jobs overseas and depressed wages at home.

**Forgive student debt. Create tuition-free higher education.** Obama's plan merely adjusts payment plans for 4% of students and allows the student debt crisis to grow worse. It leaves college as unaffordable as ever.

**Create health care as a human right** through a Medicare for all system that provides quality comprehensive care, preserves patient choice and puts people before profits.

**Stop climate change** by creating millions of jobs in green energy, manufacturing, agriculture and public transportation.

**End the Oil Wars** that are killing soldiers and civilians, and draining trillions from our national treasury. Obama is leaving thousands of private military contractors in Iraq, and has twice as many troops in Afghanistan as George W. Bush.

**Restore our freedoms and constitutional rights** by ending detention of U.S. citizens without trial, the Patriot Act, First Amendment violations, and the doctrine of corporate personhood.

Paid for and approved by Jill Stein for President
