

Reject The Lesser Evil. Fight For The Greater Good!

People across America are standing up against a failed and broken system. It's time for a peaceful revolution to fix the rigged economy and create real democracy, with real solutions that put people, planet and peace over profit.

An incredible 60% of Americans want a new major party. We are giving voice to this rising majority, empowering a new generation that knows there's no future in politics as usual.

Together we can lead the way to an America, and a world, that works for us all. **It's in our hands!**
