

# BUILDING AND CONSTRUCTION TRADES COUNCIL

2018-09-28

## Unionized Building and Construction Trades Council 2018 Municipal Election Candidate Endorsements

Dear Candidate

Our Building and Construction Trades Council participates in the political process to help shape public policy and influence legislation that has a direct impact on our Members. Our involvement includes building coalitions through advocacy, political contributions and grass roots activities supporting our nominated candidates. Each Building Trades Council Affiliate is autonomous and may choose to circulate this list of endorsed candidates to their respective Members.

Our reputation and relationships with elected municipal, provincial and federal government officials are an extremely important asset. This investment of time in political action increases our negotiation strength and promotes our success. We encourage and support our Member activities that involve volunteering their time and or contributing their personal funds to the political candidate(s) in their respective communities. We also recruit political action volunteers to represent their respective Local in this October 22<sup>th</sup>, 2018 Ottawa Municipal Election campaign.

Some of the political Issues that affect our business climate and are of importance to our Members and their families are as follows:

- \*Municipal Procurement Policy, and unionized jobs for Building Trades Council Members
- \*Infrastructure Spending, creating good long-term jobs for Building Trades Council Members
- \*Public and Green Building projects, using the quality skills of Building Trades Council Members
- \*Good Transportation and Health Promotion Policy, for the benefit of all Ottawa Citizens
- \*Good investments in infrastructure such as roads, bridges, public buildings etc.
- \*Recreational facilities and activities to make Ottawa the best place in Canada for our Members and their Families to live, work and play.

It is the opinion of our Political Action Committee that all these points will be best addressed by Mr. Jim Watson, current Mayor of Ottawa and the candidates for the 23 Councillor Positions listed below.

Mayor Watson has already announced a second phase of the Light Rail. This project will continue to generate many parallel developments well into the future. New or expanded facilities are being built in our region along the OLRT route creating good local jobs for our Members.

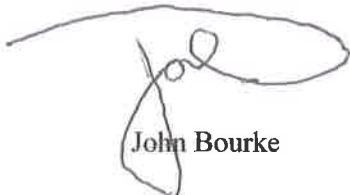

We are inviting our Affiliates to act and get involved in this Municipal Election. It is up to each one of us to advocate for our rights. Our qualified skilled construction and infrastructure workers must remain a visible political constituency that speaks out for their rightful place in society. One of the most important actions for everyone of us is to vote and to consider inviting our family, friends, neighbours, co-workers and the people we do business with in our respective Ward and neighbourhood to vote.

We have prepared a list of area candidates who are aware of our needs. We suggested that our Members visit your respective campaign offices and to support you in any way possible, and to please vote for the position of Mayor/Councillor/School Trustee at their poll. This is a critical election and our jobs depend on wise infrastructure spending and public policy that supports the needs of our Members.

District Council Office, 1178 Rainbow Street, Gloucester Sector, Ottawa, Ontario, K1J 6X7

# Value on Display. Every Day.

## Who Are We?

- We represent 21 independent affiliates
- Our 30,000 members are post-secondary trained
- We support apprenticeship training
- We supply a highly skilled work force
- Our high-quality results reflect our pride of workmanship
- We have an excellent health and safety record on our job sites
- We are responsive to Community needs

## Can Our Business Managers Help You?

## Objectives

- To ensure that purchasers of construction services receive the best overall value for their investment
- To promote labour stability and encourage the continuous flow of skilled apprentices and journeymen to shape and support our community
- To maintain the highest integrity in construction and maintenance practices
- To protect the public
- To promote healthier, safer and more productive workplaces
- To encourage fair competition and professionalism in all aspects of project work
- To actively discourage organizations and workers from enabling the underground economy

## The Building and Construction Trades Council Your Building and Construction Partners

## What are the Advantages of Qualified Skilled Labour?

- Skilled workers receive better training at the apprentice and journeyman level, thereby requiring fewer foremen and project managers for their supervision
- Skilled workers deliver lower construction costs.
- Skilled and qualified workers are recognized for their superior rate of productivity because they receive ongoing skills development to remain current with innovative and developing construction practices
- Skilled workers are recognized for their success in getting the job done on time and on budget or with savings to the project
- Skilled workers are also recognized for the durability, versatility and economical nature of their work - reflecting their highest attention to detail
- Skilled workers produce the best product: Deliver the best value, and enhance the owners' investment.
- Highly skilled construction professionals work better together to provide increased value to owners and clients
- Skilled workers support training, certifications and skills validation as a significant part of Canada's innovation and Skills plan.
