

PLEASE SIGN THE PETITION TO

Support those Affected by Hurricanes Irma and Maria

White House, Congress, Puerto Rico’s Oversight Board, Judge Swain:

In the wake of Hurricane Irma and Maria, please ensure that relief aid in the form of grants, as opposed to loans, provides enough recovery resources for Puerto Rico and the US Virgin Islands to rebuild. Because both of these US Territories were already dealing with severe debt crises before Hurricanes Irma and Maria, I ask that you ensure adequate debt relief to bring the debt of the islands to sustainable levels. Finally, please enact greater responsible lending and borrowing protections to prevent financial crises in US States, US Territories and foreign countries.

IMF, World Bank, and Creditors:

In the wake of Hurricanes Irma and Maria, please enact a moratorium on debt payments for Dominica, Antigua and Barbuda and other severely impacted countries so they can use these resources to recover and rebuild. I also ask that you provide grants, not loans, to assist in recovery efforts across the Caribbean. In light of the increased risks from climate change, please support a permanent mechanism to suspend debt payments and reduce debt payments to a sustainable level, for all vulnerable countries hit by disasters.
