US House of Representatives
Washington, DC 20515

Representative,

I am writing on behalf of the more than 650 religious bodies Jubilee USA represents across the United States. We are asking that you protect the debt restructuring process created by the Puerto Rico Oversight, Management and Economic Stability Act (Public Law No 114-187, "PROMESA").

Congress should not amend PROMESA in any way that weakens the bankruptcy or existing Title 3 process. Any amendment to the existing PROMESA legislation could further destabilize Puerto Rico.

Nearly 60% of Puerto Rico's kids live in poverty and restructuring the debt is essential for economic growth and reducing child poverty.

Gratefully,

A handwritten signature in black ink, appearing to read "Eric LeCompte".
