

Petition for a Community Friendly Use of the Malden Hospital Site

We the citizens of Malden, Massachusetts, whose signatures appear below, petition our elected leaders Mayor Gary Christenson, City Councilors: Peg Crowe, Steven Ultrino, John Matheson, James Nestor, Barbara Murphy, Neil Kinnon, Neal Anderson, Jadeane Sica, Craig Spadafora, David D’Arcangelo, and Debbie DeMaria; Senator Jason Lewis (5th Middlesex), Rep Paul Brodeur (32nd Middlesex), Rep Paul Donato (35th Middlesex), Rep Steven Ultrino (33rd Middlesex), US Senators Elizabeth Warren and Ed Markey, and US Representative Katherine Clark to help the City of Malden obtain the Malden Hospital site, and help us develop and fund an open space plan for the 18 acres of Fellsmere Heights which will enrich the quality of life for the people of Malden and Medford.

Please join us in rejecting the current proposed high density housing development in favor of a mixed use plan that meets the needs of both communities with recreational facilities, open green space, community building resources, and a small amount of moderate income elderly housing to make Fellsmere Heights a source of relaxation and well-being for the people of both cities.
