

Kansas KIDS COUNT provides an annual snapshot of how children and families are doing statewide, as well as how they compare on a county-by-county basis. The indicators tracked in this fact sheet reflect the current condition of Kansas children and can be used by state and local leaders to craft policies and interventions that can help every child achieve their full potential.

For more Kansas data, visit kac.org/kidscount. To see how Kansas kids compare on a national level, visit datacenter.kidscount.org.

For almost 40 years, Kansas Action for Children has worked to shape health, education and economic policy that puts children first. Our goal is to make Kansas the best place to raise a child and be a child.

COUNTY PEER GROUPS

Current rate is the most recent data available.

Trend rate is the average unit change per year for the most recent five years.

Peer Groups comprise counties with similar population densities. States assign counties to “peer groups” to better compare data. The five peer groups used in the Kansas KIDS COUNT project were developed by the Kansas Department of Health & Environment. Peer groups are adjusted every 10 years based on U.S. Census data.

DEMOGRAPHICS

Total Population, Population under age 18 and Racial Compositions show the number or percent for respective categories as of July 1, 2018. Data are from the U.S. Census Bureau, Population Estimates, County-Level Age, Sex, Race, and Hispanic Origin File 2014–18.

Median Household Income is the household income at which 50% of the household exceed and 50% fall below. The number represents the dollar amount for calendar year 2017. Data are based on the U.S. Census Bureau’s Small Area Income and Poverty Estimates (SAIPE). The trend represents 2013–2017.

EDUCATION INDICATORS

Early Head Start is the number of Early Head Start slots available per 100 children birth through 3 years of age living in families with incomes below the U.S. poverty threshold. Data for 2014 through 2018 are provided by the Kansas Head Start Association. Children living below poverty data are based on poverty estimates and population estimates from the U.S. Census Bureau. High School Graduation is the percentage of students graduating from high school within four years. Data are provided by the Kansas State Department of Education. The current rate represents the percent of high school graduates in 2017–2018 that entered high school during the 2014–2015 academic year. The trend represents the percent of high school graduates in academic years 2013–2014 through 2017–2018.

ECONOMIC INDICATORS

Poverty (State Level) is the one-year estimate of the percentage of children under age 18 living in families below 100%, between 100–149%, 150–199% and above 200% of the U.S. poverty threshold, as defined by the U.S. Office of Management and Budget. Data are from the U.S. Census Bureau, American Community Survey, 1-year estimates. The current rate represents calendar year 2018. The trend represents the average annual percent change between the years 2014–2018.

Poverty (County Level) is the estimated percentage of children under 18 years of age who live in families with incomes below 100% of the U.S. poverty threshold as defined by the U.S. Office of Management and Budget. Data are based on the U.S. Census Bureau's Small Area Income and Poverty Estimates (SAIPE). The current rate represents the percentage for calendar year 2017. The trend represents the average annual percent change for calendar years 2013–17.

Free and Reduced Price Lunch is the percentage of public school students who are approved for the Free and Reduced Price Lunch Program at the beginning of the academic year. Data are provided by the Kansas State Department of Education. The current rate represents academic year 2018–19. The trend represents the average annual change for academic years 2014–15 through 2018–19.

Parents' Employment is the percent of all children under age 18 living in families where no parent has regular, fulltime employment which is defined as working 35+ hours a week for 50 weeks in the previous year. Data are from the American Community Survey. The current rate represents the percent for calendar year 2017. The trend represents the average annual change for 2013–17.

Child Care Assistance is the average monthly enrollment of children in the Kansas Child Care Assistance Program. The average monthly number is the mean of the 12 monthly numbers calculated at the end of a state fiscal year. Data are provided by the Kansas Department for Children and Families. The current number represents the average monthly number for state fiscal year 2018. The trend represents the average monthly change in the number of children served for state fiscal years 2014–18.

Child Care Centers is the number of child care centers. Data are from Bureau of Family Health, Kansas Department of Health and Environment. The current number represents fiscal year 2017–2018. The two-year trend represents fiscal years 2016–2017 and 2017–2018.

Family Child Care is the number of licensed day care homes and group day care homes. Data are from Bureau of Family Health, Kansas Department of Health and Environment. The current number represents fiscal year 2017–2018. The two-year trend represents fiscal years 2016–2017 and 2017–2018.

Maternal Education is the percentage of live births to mothers who have not received a high school degree, as indicated on the birth certificate. Data are provided by the Kansas Department of Health and Environment and are based on Vital Statistics. The current year represents the percent for calendar year 2017. The trend represents the average annual percent change for calendar years 2013–17.

SNAP Benefits is the average monthly enrollment of children in the Kansas Food Assistance Program. The average monthly number is the mean of the 12 monthly numbers calculated at the end of a state fiscal year. Data are provided by Kansas Department for Children and Families. The current number represents the average monthly number for state fiscal year 2018. The trend represents the average monthly change in the number of children enrolled in Medicaid for state fiscal years 2014–18.

TANF Benefits is the average monthly enrollment of children in the Temporary Assistance for Families Program. The average monthly number is the mean of the 12 monthly numbers calculated at the end of a state fiscal year. Data are provided by the Kansas Department for Children and Families. The current number represents the average monthly number for state fiscal year 2018. The trend represents the average monthly change in the number of children enrolled in Medicaid for state fiscal years 2014–18.

Food Insecurity is the percent of children under age 18 living in food insecure households. Data are provided by Feeding America: Map the Meal Gap. The current percent represents calendar year 2017. The trend represents the average annual change for calendar years 2013 through 2017.

HEALTH INDICATORS

Immunizations is the percentage of kindergartners who received all recommended immunizations by 35 months of age of the 4:3:1:3:3 series (DTP, Poliovirus, MMR, Hepatitis B and Haemophilus Influenzae B). Data are from the Kansas Department of Health and Environment and are based on a retrospective survey of immunization certificates conducted each fall at the time of enrollment in kindergarten. The current rate is for the 2017–18 academic year. The trend rate represents the average annual percentage change for academic years 2013–14 to 2017–18.

Prenatal Care is the percentage of live births to mothers who received Adequate or Adequate-Plus Prenatal Care Utilization (APNCU) index. Data are from the Kansas Department of Health and Environment and are based on Vital Statistics. The current rate represents the annual percentage for calendar year 2018. The trend represents the average annual percent change for calendar years 2014–18.

Low Birth Weight Babies is the percentage of live births that are low birth weight (under 2,500 grams, or 5.5 pounds). Data are from the Kansas Department of Health and Environment and are based on Vital Statistics. The current rate represents the annual percentage for calendar year 2018. The trend represents the average annual percentage change for calendar years 2014–18.

Infant Mortality is the number of deaths of infants (under 12 months) per 1,000 live births. Data are from the Kansas Department of Health and Environment and are based on Vital Statistics. The current rate represents the number of deaths per 1,000 live births for calendar year 2018. The trend represents the average annual change in deaths per 1,000 live births for calendar years 2014–18.

Breastfeeding is the percentage of infants 0 through 6 months who are exclusively breastfeeding at six months. Data are provided by the National Immunization Survey, Centers for Disease Control and Prevention. The current number represents is from 2018, reflecting the two-year average status of the prior two National Immunization Survey years. The trend represents the two-year average status of the prior two National Immunization Survey years from 2012–2018.

Teen Violent Deaths is the number of deaths (from homicide, suicide, and motor vehicle accidents) of teens 15–19 years of age per 100,000 teens of the same age range. Data are from the Kansas Department of Health and Environment and are based on Vital Statistics. Population estimates data are from the U.S. Census Bureau. The current rate represents the number of deaths per 100,000 for calendar year 2017. The trend represents the average change in deaths per 100,000 for calendar years 2013–17.

Uninsured Children (State Level) is the percent of children

under age 19 with no health insurance. Data are provided by the American Community Survey of the U.S. Census Bureau. The current rate represents the annual percentage for calendar year 2018. The trend rate represents the average annual percentage change for calendar years 2014–2018.

Uninsured Children (County Level) is the percentage of children under age 19 with no health insurance. Data are provided by the Small Area Health Insurance Estimate (SAHIE) of the U.S. Census Bureau. The current rate represents the annual percentage for calendar year 2017. The trend rate represents the average annual percentage change for calendar years 2013–17.
