

RESIST, DEFY, NULLIFY!

Resistance to tyranny was the spirit of the founders that created our liberty. Jefferson said, "Rebellion to tyrants is obedience to God." Texas was born in that spirit:

Actions needed for enforcement:

- * Urge our Sheriffs, DAs, AG, and governor to take action to stop unconstitutional acts in Texas.
- * Urge all Texas officials to not implement unconstitutional acts.
- * Encourage Texas officials to exercise independent judgment about Constitutional meaning.
- * Pass Texas legislation to streamline formal declarations of federal unconstitutionality by any branch of state government.

The Constitution Cannot Protect Us Unless We Protect the Constitution.

The root cause of our political problems is that no one is enforcing the Constitution. The federal government engages in multitudes of activities not delegated to the feds in the Constitution.

The Supreme Court is not protecting the Constitution!

Art. VI of the Constitution says that it is the Constitution that is supreme - not the Supreme Court or the federal government. Art. VI also requires EVERY member of government to swear an oath to support the Constitution.

The way we protect the Constitution is to convince our local and state governmental officials - including law enforcement - to stop unconstitutional federal acts.

Texas Constitutional Enforcement

What do we do when the federal government violates the Constitution every day in myriads of ways?

Enforce the Constitution!

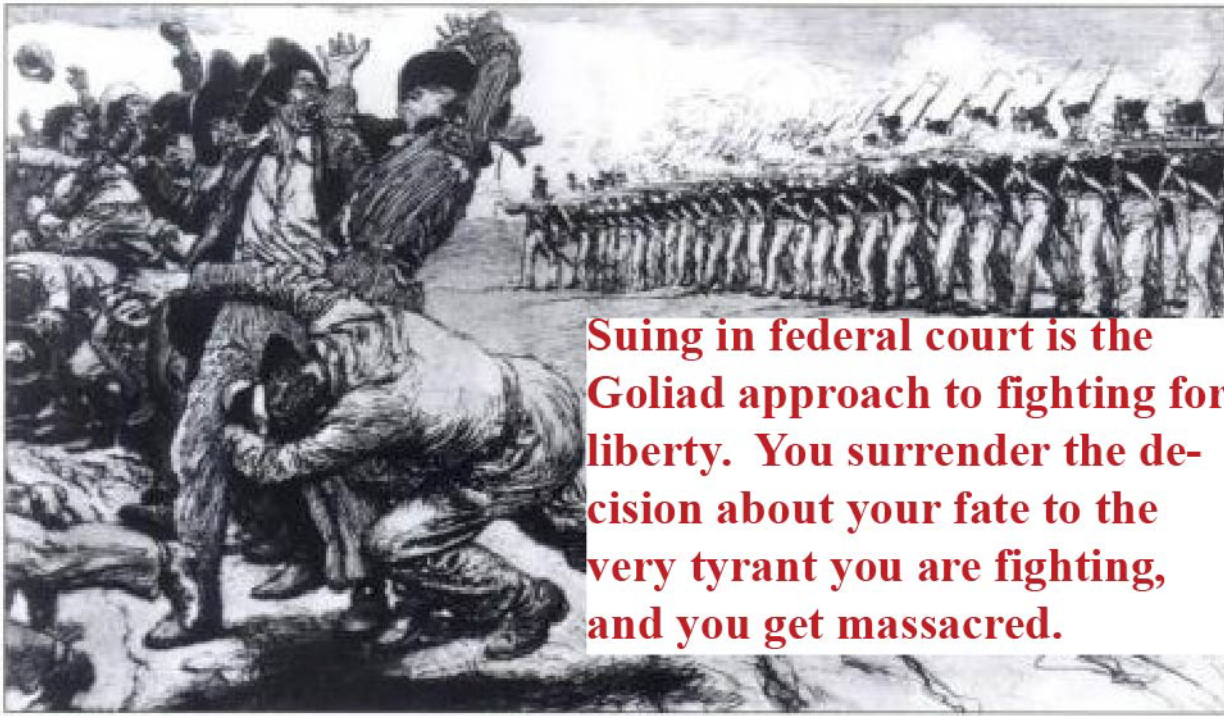

Texas officials should honor their oaths to defend the Constitution by stopping the feds when they commit unconstitutional acts.

Suing in federal court is the Goliad approach to fighting for liberty. You surrender the decision about your fate to the very tyrant you are fighting, and you get massacred.

Constitutional Enforcement v. Other Approaches for Liberty:

Federal Lawsuits

See the picture above. Suing in federal court implicitly accepts the very premise that is destroying our liberty - that the Supreme Court is the final arbiter of constitutional meaning. That approach has been tried and failed.

Art. V Convention

If the establishment is violating the Constitution we have, why would they follow a modified one? Enforcement is a prerequisite to amendment.

Voting Harder for Feds

How's that working? The feds will never limit their own power. Texas constitutional enforcement does not rely on non-Texans to win back our liberty. Focus on local/Texas races.

Secession

Secession is moral and constitutional, but difficult, disruptive, and dangerous. Currently, Texans are unlikely to vote for secession. Constitutional enforcement may change that if the feds tyrannically respond to enforcement. Try enforcement first.

Our Path Back to Constitutional Government

Texans know that an out-of-control federal government will destroy us. An insatiable federal government will never limit itself. We can only restore our Constitution, our liberty, and our country by enforcing the Constitution to stop unconstitutional federal acts.

Texas is the only power that can stand up to federal tyrants to save our Constitution. We have to persuade our Texas officials to honor their oaths and stop the feds as they commit unconstitutional acts.

An act by a fed under the color of unconstitutional law is null and void. Attempted enforcement by feds violates the Texas penal code, including the Texas Official Oppression Act.

The Constitution is not a self-enforcing document. We have to take action here in Texas to stop the destruction of our liberty.
