

The Kurdistan Solidarity Campaign was established in April 2016 to promote the cause of a free and democratic Kurdistan, to expose human rights abuses against Kurds particularly in Turkey, and to forge links of solidarity with Rojava as a beacon for secular, democratic socialist, feminist and sustainable politics.

We aim to establish a broad-based campaign and encourage trade unions, political parties and other organisations to join and help us raise awareness among society and build networks of support and solidarity for the Kurdish struggle.

KSC is involved in political work, building links with the People's Democratic Party (HDP) in Turkey whose MPs and activists face arrest and imprisonment; opposing the war on Kurds and supporting those who have volunteered to fight Isis in Rojava and their families; and opposing arms sales and the political support from the British government.

The situation is critical. While the Kurds face an ethnic cleansing programme in Syria and Turkey the world turns and looks away. But they need and deserve our support and solidarity more than ever. **JOIN US TODAY.**
