Dear Secretary,

I am writing to your CLP to ask your members to consider giving me the privilege of nominating me for the constituency section for this year's National Executive Committee elections.

I'm privileged to be a member of the NEC, representing CLPs and party members. For varying periods since 1981 I have uniquely served on all four of our Party's National committees. I've used this experience to give help CLPs and party members in every region – I am only a phone call away. I am also very happy to visit CLPs and give a report – I've spoken at meetings in every region.

For over 30 years I've sent to every CLP my regularly updated Guide to Annual Conference and I send out regular NEC reports (full reports of all NEC and NPF meetings are available at www.grassrootslabour.net).

With Jeremy leading our party, we made a huge advance at last year's General Election, placing us a good position to become the next government. He has a huge mandate within the party and a commitment, integrity and basic decency that is quite exceptional. I worked with Jeremy in NUPE before he became an MP; I have never met anyone so dedicated. The NEC needs to stand united behind Jeremy as we fight to form the next government.

An effective and accountable NEC could and should play a vital role in the Party's fight back, bringing together as it does, the CLPs, the unions and the Parliamentary leadership.

My record proves I have the necessary commitment, determination and enthusiasm to play a full part in our drive to victory in England, Scotland and Wales and a majority Labour Government.

Yours in comradeship,

Peter Willsman
