

Dr Heather Peto

I can win an NEC place for the 80% of Labour members who voted to Remain and want an alternative to Brexit.

The Party must not accept the dogma of the Press that migration was to blame for a Leave vote. Migration was used as a scapegoat for Tory cuts to public services and lack of investment in the Midlands, Wales & the North. Labour Members need to be balloted on the Party's position on Brexit, with alternatives such as Remaining in the EU with an EU-UK Marshall plan of investment in public services & Leave areas.

Such a vision for Remain provides the basis to force a General Election before April 2019.
