

**This year Young Labour members have campaigned up and down the country in marginal seats, built new regional groups, and reached out to a generation of young people forgotten by David Cameron.**

In the next ten months Young Labour members will be out in marginal seats, working to deliver a Labour Government for young people across the UK. But to do that we need your help—from recruiting new members to organising campaign days, young members will play a huge role in Labour’s General Election campaign.

Join us for Youth Day at Conference to meet other young members, hear from top politicians and speakers, and find out more about our plans for the General Election.

**Simon Darvill**, Chair of Young Labour  
**Bex Bailey**, NEC Youth and Student Representative.
