

Think you know about careers in construction and the built environment?

You're Wrong!

There are many great things about working in the construction industry.

Construction is not just working on a building site. There are many careers in the construction industry where young people can:

- Be creative
- See their ideas come to life
- Help improve their environment
- Use cutting-edge technology to create and build new places to live, work and play
- Work in an industry where some of the world's best engineers and Architects are female
- Earn a great salary and have long term worldwide career prospects

Airey Miller is a company working in many areas of construction and with Lambeth Council, helping with their estates regeneration. We are offering a 2-week summer holiday work experience placement to a student (years 10, 11 and 12), living in Lambeth, to open your eyes to the diverse world of construction.

Your placement will be in our London Victoria office. We will also offer an oyster card for travel and lunch will be provided daily throughout the placement.

If you are interested in this exciting opportunity complete the attached application form including telling us why you want this opportunity and email us at:

Ethnicity Collection data

Our ethnic background describes how we think of ourselves. This may be based on many things, including, for example, our skin colour, language, culture, ancestry or family history. Ethnic background is not the same as nationality or country of birth.

The Information Commissioner recommends that young people aged over 11 years old have the opportunity to decide their own ethnic identity. Parents or those with parental responsibility are asked to support or advise those children aged over 11 in making this decision, wherever necessary. Pupils aged 16 or over can make this decision for themselves.

Please study the list below and tick one box only to indicate the ethnic background of the student named above.
