2019 Tasmanian Community Landcare Conference

25–27 October 2019

25 years supporting
community Landcare

A WORD FROM:

ROD KNIGHT, LANDCARE TAS CEO
Tasmanians are both humble and generous in supporting Landcare in their communities. Around 5,000 people regularly work with our 20 Landcare groups. Landcare gives local people ownership of local issues, delivering strong environment and sustainability outcomes for all Tasmanians. We are excited to celebrate with you this weekend.

Premier Will Hodgman
The Tasmanian Government recognises the important work of Landcare Tasmania in protecting Tasmania's unique natural values.
To help Landcare Tasmania volunteers continue delivering these vital services, we are pleased to have doubled the annual government funding and increased funding for Natural Resource Management. I congratulate Landcare Tasmania volunteers for 25 years of valuable service to Tasmania and the hard work they do to protect our natural environments.

**The Hon Guy Barnett, MP
Minister for Primary Industries and Water**
I am delighted to support Landcare Tasmania and recognise the achievements of its hard working volunteers over 25 years. Thank you for your commitment to improving our productive farmland, waterways and environment and for the contribution you have made to our State.

Clarence Mayor Doug Chipman
CCC has been participating in Landcare for over 30 years and provided the benchmark for establishing and supporting Tasmanian Landcare and Coastcare groups. Today Clarence has over 27 Landcare and Coastcare groups helping to protect and maintain the coastline, parks, and reserves around Clarence.
