

TOGETHER WE'RE CHANGING THE COURSE OF THE LA RIVER

We've accomplished a lot this year and hope we can count on support to keep the momentum going as we head into 2017.

[DONATE](#)

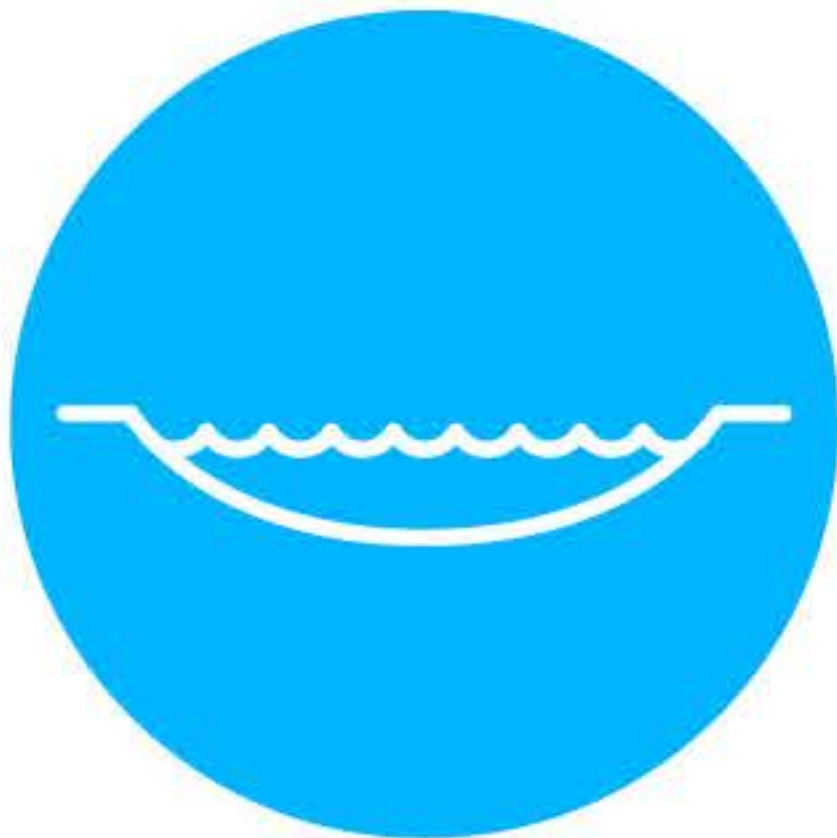

Our Greenway 2020 Campaign to connect all 51-miles of the bike path helped put Measure M on the November 2016 ballot - and it PASSED! LA County have \$425M in funding to complete the path.

Thanks to a generous grant from The Walt Disney Company, we broke ground on 3 Rio Vistas Project "parklets" designed by high school students with the guidance of local landscape architects that transform derelict street ends into vibrant river access points.

A SMALL SAMPLE OF THE OPPORTUNITIES FOR TRANSFORMATION

28.5 MILLION

The number of gallons we could recapture annually to replenish our aquifers and creating a local, sustainable water supply.

10 MILLION

The number of Californians who live within 30 miles of the LA River. That's 25% of the state's population!

2,300 to 5,500 ACRES

The vast amount of open space the LA River potentially could provide for communities that suffer from lack of clean air, open space, nature and recreation.

13.5%

of LA County bus stops are within a mile of the LA River.

26%

of LA County Metro stops are within a mile of the LA River.

**We can make the River so much more.
Every dollar you give will help inform and
mobilize the movement to transform our LA River.**

HELP US STAY THE COURSE BY GIVING TODAY.

Give for smarter water
management

Give for more parks
along the river

Give for connected
communities
