

ARE THE SAME PEOPLE WHO LIED TO YOU ABOUT UKRAINE ALSO LYING TO YOU ABOUT TRUMP? (AND FOR THE SAME REASON)

February 22, 2017—Today, February 22, is the third anniversary of the February 22, 2014 coup in Ukraine. You, like most Americans, have been systematically lied to about what happened in the so-called Maidan color revolution, and these same lies are now being used to feed a national hysteria against Putin and Russia which risks World War III. The “narrative,” (the now-fashionable word for government lying) is that Russia annexed Crimea and occupied eastern Ukraine because Putin is a ruthless bad actor and was seeking to crush a people’s power rebellion. That “narrative” turns reality upside down and inside out.

Lyndon LaRouche’s *Executive Intelligence Review* magazine was on the ground during the events of the Maidan and reported exactly what happened. Today, February 22, 2017 *EIR* releases a 17-page special report and case study which proves that the truth is the opposite of the concocted “narrative.”

The *EIR* dossier thoroughly documents how Barack Obama and Hillary Clinton’s State Department staged a “color revolution” culminating in the February 22, 2014 coup, using neo-Nazi groupings with lineage dating back to World War II, assisted by George Soros’ Open Society networks and the National Endowment for Democracy (an asset of American and British intelligence services). This was done as part of new cold war destabilizations against Russia aimed at precluding a potential United States, Russia, China, India, and Japan alliance of economic development for the entire world.

When President-elect Trump signaled that he would not back down from his campaign promise for better relations with Russia, whether he knew it or not, he established himself as a deadly threat to the present-day British imperial order—the so-called Davos consensus of Wall Street/City of London banks, and public/private intelligence networks, like those of Soros and the National Endowment for Democracy, who acted in the Ukraine coup. These people are motivated by the idea that the Anglo-Americans should be the sole power in the world, the sole hegemon, and are prepared even to loot and crush their own people to maintain that position. It is no accident that as a result of the Maidan, Ukraine now sits economically devastated and at perpetual war.

Russia, China, India, and Japan have embarked on a grand design of world economic development featuring the largest scale of infrastructure building ever undertaken by human beings. If the United States would join this project, President Trump would have absolutely no problem in fulfilling his promise to “Make America Great Again.” It would also, not coincidentally, condemn the British Empire to the dustbin of history. If you want to know who is behind this attempt to destroy the Trump Presidency and why they are doing it, including former President Barack Obama, who is merely their tool, and if you believe that these treasonous elements should be exposed and prosecuted for their crimes, you must obtain and study the *EIR* dossier.
