

SHOWDOWN MOMENT: BRITISH ENEMY APPARATUS VERY EXPOSED, VERY READY FOR TERMINATION

We are in a showdown moment. At this week's Group of 20 Summit—only three days away, in Buenos Aires, there is the potential for Great Power diplomacy in the direction of a New Paradigm of foreign relations, as an outcome of the sideline meetings of heads of state and government of the United States, China, Russia, India and others.

The growing momentum for New Paradigm economic development is seen in high-level events this month in six Western European nations: in Germany, the "Hamburg Summit: China Meets Europe" (Nov. 26-27); in France, the Lyon "Franco-Chinese Forum" (Nov. 26-28); in Spain, President Xi Jinping's state visit (Nov. 27-29); in Portugal, Xi's visit (Dec. 4-5); in Italy, a new Xinhua-associated Italian financial media service will be set up (Nov. 6 agreement); in Norway, the first Polar Route icebreaker delivery of Yamal LNG, for transshipment from the northern port of Honningsvåg.

This is the context in which to see the blatant, dangerous gambits to wreck the Buenos Aires gathering of leaders, and any other such future opportunity, coming from the British Empire crowd, in the form of staged confrontations, lies and subversion.

Look at recent destabilizing events: the Nov. 24 chemical weapons attack on Syrians in Aleppo; the stoking of suffering and strife at the Mexico-U.S. border; and on Nov. 25, Ukraine's naval provocation against Russia in the Black Sea. The British government asset, the "Integrity Initiative" is fully deployed to goad the U.S. and Western Europe to launch an offensive against Russia over the Ukraine incident, blaming Russia for "aggression" against Ukraine. The British imperialists are making a habit of exposing their own role in demanding world war!

These provocations are not a sign of power, but of desperation, desperation to stop the spreading success of the New Paradigm of collaborative development expressed in the Belt and Road Initiative, and what lies ahead if the U.S. joins up. Schiller Institute Chairwoman Helga Zepp-LaRouche today emphasized that each time the British Imperialist apparatus steps forward

in its own name to sabotage world peace, it works to the detriment of their dying system. The Empire is dangerous, but all the easier to crush.

The Nov. 25 Ukrainian naval breach of Russian territorial waters was long pre-planned. As the Italian military journal *Difesa Online* wrote on Nov. 25, "it was evident to all those who follow local events that for some days already, the Poroshenko government in Ukraine was trying to provoke an armed confrontation with Moscow in the Crimean waters." Russian Foreign Ministry spokesperson Maria Zakharova, said the same yesterday, adding a warning. "We are talking about a pre-planned, deliberate, and now realized large-scale provocation.... I think everybody should be careful next time. I think there will be a next time, considering what is happening now."

President Donald Trump's first response to the Ukraine incident, Nov. 26, was to express concern, and hopes for settlement. "We do not like what's happening, either way; ... hopefully, it will get straightened out." President Vladimir Putin will issue his statement on this incident in a few days.

From London, however, comes a raving "script" of what Trump and the West must do against Russia. It is the featured item on the website of the Integrity Initiative, which is a British intelligence black war propaganda operation. Its funding is from the U.K. Foreign and Commonwealth Office. Its Nov. 26 posting is titled, "West Is Once Again Failing Test Set by Russian Aggression," by Edward Lucas, formerly of *The Economist*, and a longtime Russia-hater, who wrote such books as *Deception: Spies, Lies and How Russia Dupes the West* (2012) and *The New Cold War: Putin's Russia and the Threat to the West* (2nd ed., 2014). Lucas calls for "kinetic, symbolic, and financial measures" against Russia. This is to include, the West sending military aid to Ukraine, running a NATO flotilla to the Ukrainian port of Mariupol on the Sea of Azov, putting sanctions on Russian officials and businessmen present in the West, and cutting Russia off from Western finance. Lucas says that the

West didn't act against Nazi Germany's 1939 invasion of Poland, but they must act now against Russia's aggression against Ukraine.

Lucas is part of the British "cluster" of Integrity Initiative's operatives, which also includes former British Ambassador to Russia Sir Andrew Wood of Orbis Business Intelligence, the firm of "former" MI6 agent Christopher Steele, who fabricated the infamous anti-Trump dossier. These figures are at the heart of the coup operations against Trump, and before that, the Obama Administration election subversion.

Zepp-LaRouche nailed the Integrity Initiative in a Sputnik interview published yesterday, now being run in media internationally. She said that the group's activity displays the "modus operandi of British intelligence operations, and it very well may turn out, that it is this network, which is deeply involved in 'Russiagate' and the entire coup against President Trump."

It is now urgent for all the documents bearing on these criminal, treasonous operations to be de-classified, and the full story revealed. Every hour counts.
