

Answer Me This: Do You Have the Guts to Stop a Nuclear War?

August 4—The insanity of the overwhelming majority of the US House and Senate in passing their bloodthirsty sanctions legislation last week, starkly demonstrated the truth of what Lyndon LaRouche has been saying for months: that if the British-orchestrated coup against President Trump succeeds, it will land us right in the middle of a nuclear war. "People don't know what these weapons systems can do," he said today. "The U.S. is marching to thermonuclear war."

President Trump tweeted Thursday that "Our relationship with Russia is at an all-time and very dangerous low. You can thank Congress..." And in one of his two signing statements on this bill, the President said, "The Framers of our Constitution put foreign affairs in the hands of the President. This bill will prove the wisdom of that choice.... I built a truly great company worth many billions of dollars. This is a big part of the reason I was elected. As President, I can make far better deals with foreign countries than Congress." Lyndon LaRouche heartily concurred with all these statements.

None of our controlled media have thought it worthwhile to report that President Trump's signing statement declared the most important parts of this bill to be unconstitutional, as indeed they are, mainly for the reason he gave above—and said that he would not enforce them. Now it is up to the American people to give him the support to defeat the sedition against

him, and prevent an otherwise imminent nuclear war.

Some ill-advised Russian leaders—but not President Putin—are apparently ignorant of what is really going on in this country, and are making belligerent statements which are duly picked up and re-echoed from British-controlled U.S. media outlets, for the obvious purpose. President Putin's spokesman Dmitry Peskov refused to comment on an ill-advised Facebook post by Prime Minister Medvedev. President Putin himself, has limited his own response to the statement that there is no reason at this point for Russia to introduce any additional counter-sanctions against the US.

The same controlled U.S. Congressmen responsible for the "sanctions" insanity, are pushing forward with even more extreme war provocations—just when you thought that was impossible! "Politico" reported yesterday that the version of the National Defense Authorization Act (NDAA) which has already passed in the House of Representatives, as well as the one under consideration in the Senate, would actually force the Pentagon to violate the Intermediate-Range Nuclear Forces (INF) Treaty negotiated by President Reagan and Soviet General Secretary Gorbachov in 1987!

At the same time, our organizers are picking up signals of a mass-strike like upwelling among Americans. We must unify them around Lyndon LaRouche's "Four New Laws" of June 10, 2014.
