

# LAROCHE: TOLERATION FOR OBAMA AND HILLARY LEADS TO BLOODSHED AND WAR

---

November 2, 2016—Polling data released this week shows that voters in the vital swing states overwhelmingly support the reinstatement of Glass-Steagall and other measures to break up the big Wall Street banks. According to the poll by the Lake Research Partners, 70 percent of voters in Florida, Pennsylvania, Missouri and Ohio want Glass-Steagall now. The poll concluded

“Public frustration with Wall Street recklessness and greed is high and cuts across the political spectrum. Whoever wins this election should make turning this outrage into real change a high priority.”

Lyndon LaRouche on Tuesday took that argument to its logical conclusion: All of that hatred is actually directed at President Obama, whose disastrous policies have brought us to the point of existential crisis. Hillary Clinton is an extension and continuation of those Obama policies: protection of Wall Street; inaction in the face of a

nationwide illegal drug epidemic; perpetuation of overseas endless wars costing taxpayers trillions of dollars; the total destruction of the U.S. health-care system under Obamacare; demonization of Russia, driving us to thermonuclear World War III.

An honest vote on Nov. 8 will show this hatred of Obama and everything he has done to the United States on behalf of his British masters. British interests have run Obama since the day he entered politics. Hillary Clinton destroyed herself through her capitulation to Obama, and this is why she is hated. Any attempt to conceal this on election day will lead to bloodshed.

This is deadly serious. We are not only facing the prospect of domestic bloodshed, but the real chance of war. We are on the edge of World War III already, because of the Obama policies of provocation against Russia, policies that Hillary Clinton has carried to an even more obscene extreme.
