

12 April 2019

Dear neighbour,

Normally at this point in a local election campaign all of the candidates would be writing to you to tell you how utterly nice they are, using phrases like 'Community champion' and 'Best for Broxtowe'.

Not us.

We're not feeling nice: we're angry. Stapleford residents have been massively let down!

The conniving Conservatives will be hoping that you'll ignore four years of neglect and vote for them if they promise improvements that they could and should have already delivered. Over half of the Conservative candidates in Stapleford aren't even from the town. The cheek of trying to flood our council seats with party puppets from elsewhere is mind-boggling. Even if it weren't for their history of uselessness, this brazen act alone should be enough to deny the Tories your vote.

Lacklustre Labour seem to have no specific policies for our town, meaning that Stapleford, on their watch, would almost definitely continue to be Beeston's poor-relation for another four years! They haven't even put up enough candidates to take control of the Town Council, and they probably won't be taking any seats from the Tories on the Borough either. This means that absolutely nothing will change if you vote Labour - overall it would still be a Tory victory!

All of the Liberal Democrat candidates across Stapleford either live in the town or run businesses here. We can and will deny the Tories control of the Town Council and we'll take their Borough seats away from them too, removing their overall majority and ending their policy of local abandonment. This is the only way to fix Stapleford and give you back the representation you deserve.

Please vote to give Stapleford its fair share by voting Liberal Democrat this election.

Yours sincerely,

Tim Hallam

on behalf of David Grindell, Simon Frost, Bob Browne, Elizabeth Epton  
and the rest of the Stapleford Lib Dem team.
