

**VOTE
RODERICK LYNCH
FOR LONDON CHAIR**

Throughout my work as a party member, as Chair of the Liberal Democrat Campaign for Race Equality and as a FASC board member I've been working to put the Lib Dem message out to diverse communities.

In a time of Brexit, COVID and Black Lives Matter we must turn our slogans and statements into actions.

I have appeared on BBC Politics London, LBC and BAME media outlets on issues like Stop and Search and Black Lives Matter.

Let's "DARE" to change so we can build strong local parties, win councils, win the GLA and build a Liberal London.

- D Diversify the Party membership both in regions & locally
- A Action to look at alternative campaigning
- R Revolutionise our approach to fund raising
- E Environment of London

We need to make sure our activists and campaigners see and understand the full Ward data and as a Region we need to invest in comprehensive training for all. We must engage more with our members, listen to them and feedback to them. Take them on our shared journey.

We have to ensure all Local Executives are formidable teams with a listening ear and a can do attitude and work with the Chairs from day one to hit the ground running.
