Mae Age Cymru wedi ymrwymo i greu Cymru sy'n gyfeillgar i oedran. Mewn Cymru cyfeillgar i oedran byddai gan bobl hŷn yr un hawliau, parch a chyfleoedd a mynediad at wasanaethau â gweddill y boblogaeth.

Ond mae unigrwydd a arwahanrwydd yn effeithio 75,000 o bobl hŷn ledled Cymru sydd yn dweud eu bod 'bob amser neu yn aml' yn teimlo'n unig.

Gall teimlo yn unig gael effaith niweidiol ar bobl hŷn ac arwain at ddirywiad iechyd corfforol a meddyliol.

Mae tystiolaeth hefyd y gall unigrwydd gynyddu pwysau ar wasanethau awdurdodau a iechyd lleol. www.agecymru.org.uk/2017manifesto

Age Cymru is committed to achieving an age friendly Wales.

In an age friendly Wales, older people will have equal rights, respect, opportunities and the same access to services as the rest of the population.

But loneliness and isolation are a daily reality for many older people with 75,000 older people in Wales reporting 'always or often' feeling lonely.

Feeling lonely has many detrimental effects on older people, and there is increasing evidence of the negative impacts on physical and mental health.

There is also strong evidence that loneliness can increase the pressure on a wide range of local authority and health services.

A welcome from Mark Williams MP

Another Liberal Democrat conference! How time flies when you're having fun. After over 30 years of attending Liberal Democrat conferences I understand their importance. Whether it be catching up with old friends, exchanging campaigning ideas and best practice or indeed voting on our party policy going forward, the Welsh Liberal Democrats are a strong family and our conferences are always held with good spirit and excellent debate.

We have seen the Welsh Liberal Democrat family grow over the last few months, after the European referendum and our clear message on Europe seems to be resonating with huge swathes of the public as the government continues to mismanage Brexit. We should not be afraid of being bold and radical, as is the liberal tradition.

Of course, this conference is one of our most important for a while. With local government elections coming up across all of Wales in May, we need to use this opportunity to show the media and the general public that we are still here, ready to represent our local communities and build our party for the future. At the heart of the Welsh Liberal Democrats is our ethos of community politics and it is true that as we build our party back up to a position of strength, we start by building a strong county council base across the country.

We have already seen in recent months the potential of Liberal Democrat candidates to win council elections across the UK, including here in Wales. This is our opportunity to make gains and I am confident that we can do it, particularly with the strong and growing field of candidates we have.

I am proud of this party and know that moving forward our party will only grow stronger. The people of Wales deserve politicians who will always fight their corner, and the more councillors we have the more opportunities we will have to implement Welsh Liberal Democrat policies and change Wales for the better. Our very own Kirsty Williams AM is demonstrating the difference that can be made when Welsh Liberal Democrats are in government and I believe that come May we will have the opportunity to shape many local authorities across Wales and work as hard as always for the people of Wales.

So again, I encourage you all to get out there and campaign like you've never campaigned before.

Cynhadledd Democratiaid Rhyddfrydol arall! Mae amser yn gwibio heibio pan mae hwyl i'w gael. Rwy'n deall eu pwysigrwydd ar ôl mynychu cynadleddau'r Democratiaid Rhyddfrydol am dros 30 mlynedd. Boed i sgwrsio â hen gyfeillion, trafod syniadau ac arfer da ymgyrchoedd, neu hyd yn oed pleidleisio ar bolisïau dyfodol y blaid, mae'r Democratiaid Rhyddfrydol yn deulu clos, ac mae ein cynadleddau bob tro'n cael ei chynnal mewn hwyliau da, gyda dadlau gwych.

Rydym wedi gweld teulu'r Democratiaid Rhyddfrydol Cymru'n tyfu dros y misoedd diwethaf yn dilyn refferendwm Ewrop, ac mae'n ymddangos bod ein neges glir ar Ewrop yn atsain yng nghlustiau cryn gymaint o'r cyhoedd wrth i'r llywodraeth barhau i gamreoli Brexit. Ddylwn ni ddim bod ag ofn bod yn feiddgar a radical, gan gadw'n dryw i'r traddodiad rhyddfrydol.

Dyma'r gynhadledd bwysicaf ers peth amser. Gydag etholiadau llywodraeth leol ar draws Cymru ym mis Mai, rhaid inni ddefnyddio'r cyfle yma i ddangos i'r cyfryngau a'r cyhoedd ein bod yn bodoli, yn barod i gynrychioli ein cymunedau lleol ac adeiladu'r parti er mwyn y dyfodol. Mae'r ethos o wleidyddiaeth cymuned yn graidd i'r Democratiaid Rhyddfrydol Cymru, ac mae'n wir, wrth inni ail-adeiladu ein parti at bŵer, rydym yn dechrau gan adeiladu sail gref mewn cynghorau sir ar draws y wlad.

Rydym wedi gweld gallu ymgeiswyr Democratiaid Rhyddfrydol i ennill etholiadau ar draws y DU dros y misoedd diwethaf, gan

gynnwys yma yng Nghymru. Dyma'n cyfle i ennill seddi, ac rwy'n hyderus byddwn yn llwyddo, yn enwedig gyda'r llu o ymgeiswyr cryf sydd gennym.

Rwy'n falch o'r parti, ac yn llawn hyder mai tyfu'n gryfach wneith hi. Mae pobl Cymru yn haeddu gwleidyddion sydd yn brwydro er eu budd nhw, ac y mwyaf o gynghorwyr sydd gennym, y mwyaf o gyfleoedd sydd gennym i roi polisiau Democratiaid Rhyddfrydol Cymru ar waith a gwella Cymru er gwell. Mae Kirsty Williams AC yn dystiolaeth o'r gwahaniaeth all ddigwydd pan fod Democratiaid Rhyddfrydol Cymru mewn llywodraeth. Credaf, ym mis Mai, bydd gennym y cyfle i lunio nifer o awdurdodau lleol ar draws Cymru a gweithio'r un mor galed er budd pobl Cymru.

Felly, rwy'n annog pob un ohonoch i fynd mas, ac ymgyrchu ar gyfer pob pleidlais.

This year, the Welsh Liberal Democrats are hosting a Skills Lounge where members can drop by and spend 15 minutes talking directly to a party trainer about your needs, either individually or in small groups. Please sign up at the reception desk.

You can speak to trainers about the following areas;

- Social Media
- Campaign Messaging
- Nationbuilder & Connect
- Interacting with the Local press
- Using the Council to Campaign

In addition, **ALDC** will be at Spring Conference holding drop in sessions on campaign literature and election law.

Information about the Motions

Every Motion to be debated at the Conference appears in this section in the same order as they do in the Conference Hall Agenda earlier in the Conference Guide. The time that the motion will be debated is listed alongside each motion.

Language of Motions

All motions appear in this Guide in both Welsh and English. As all motions were originally submitted in English, if there is a discrepancy between the languages the English language version shall take precedence.

Amendments to Motions

All motions that appear in this Guide can be amended. Amendments may be submitted by Local Parties, the Welsh Party Committee that has responsibility for the issue raised in the motion, the Welsh Liberal Democrat group in the National Assembly for Wales or in the UK Parliament, or 20 Conference Representatives.

Amendments should be e-mailed to policy@welshlibdems.org.uk by mid-day on Wednesday 1st March 2017.

All amendments accepted for debate will be published in the Conference Announcements which will be available on the Party website www.welshlibdems.wales in the week before Conference and from the Registration Desk at Conference.

Topical Motions

Topical Motions are policy motions which are based on an event which happens after the deadline for submitting policy motions i.e. 18 February 2017.

Topical Motions may be submitted by Local Parties, the Welsh Party Committee that has responsibility for the issues raised in the motion, the Welsh Liberal Democrat group in the National Assembly for Wales or in the UK Parliament, or 20 Voting Members of Conference.

Topical Motions should be e-mailed to policy@welshlibdems.org.uk by mid-day on Wednesday 1st March 2017.

All Topical Motions accepted for debate will be published in the Conference Announcements which will be available on the party website www.welshlibdems.wales in the week before Conference and from the Registration Desk at Conference.

Topical Motions published in the Conference Announcements may also be amended. The deadline for submitting an amendment to a Topical Motion is 9 am on Saturday 11th March. Amendments should be e-mailed to policy@welshlibdems.org.uk or given to the Policy Officer or Chair of Conference Committee in hard copy.

Emergency Motions

Emergency Motions are motions relating to an event which occurs after the deadline for Topical Motions. Emergency Motions should be brief.

Emergency Motions may be submitted by Local Parties, the Welsh Party Committee that has responsibility for the issues raised in the motion, the Welsh Liberal Democrat group in the National Assembly for Wales or in the UK Parliament, or 20 Voting Members of Conference.

The deadline for submitting Emergency Motions depends on when the event that the motions relates to occurs. For events that occur before the start of the Conference the deadline is the start of Conference i.e. 9:00 on Saturday 11 March. For events that occur during Conference the deadline is three hours before the slot in the agenda for Emergency Motions.

Speaking at Conference

Who can speak?

Party Members who are registered as voting or non-voting members of Conference can speak in any debate. Registered Observers may speak with the permission of the Conference Committee.

Length of Speeches

In every debate on a motion, 5 minutes will be allowed for Proposers of motions, 4 minutes for Proposers of Amendments and 3 minutes for all other speakers including Summators of both motions and amendments. The Chair may reduce these timings to allow more members to speak in a debate. If they do this they will announce the change during the debate. If you are speaking and the Chair asks you to bring your speech to an end please finish promptly.

Simultaneous Translation

Simultaneous translation will be available at this conference. Please make the most of the opportunity to address the Conference in Welsh.

Here are some tips for making the most of this service: indicate via the speakers card if you wish to speak in Welsh; try to speak entirely in Welsh; if changing languages in your speech pause while changing languages to allow the translator time to finish.

Translation headsets can be collected from the table near the entrance to the Conference Hall. Please ensure that you return the headset after use. If a headset goes missing during Conference, the Conference Committee may introduce a £5 deposit system for headsets for the remainder of the weekend.

Speaking at Conference

How to go about Speaking

Anyone wishing to speak in a debate needs to fill in a speaker's card and submit it to the Speakers' Desk and wait to see if they are called in the debate. A separate card should be filled in for every debate. Speaker's cards are available from the Speakers' Desk and from the stewards in the auditorium. They can also be collected from the Registration Desk.

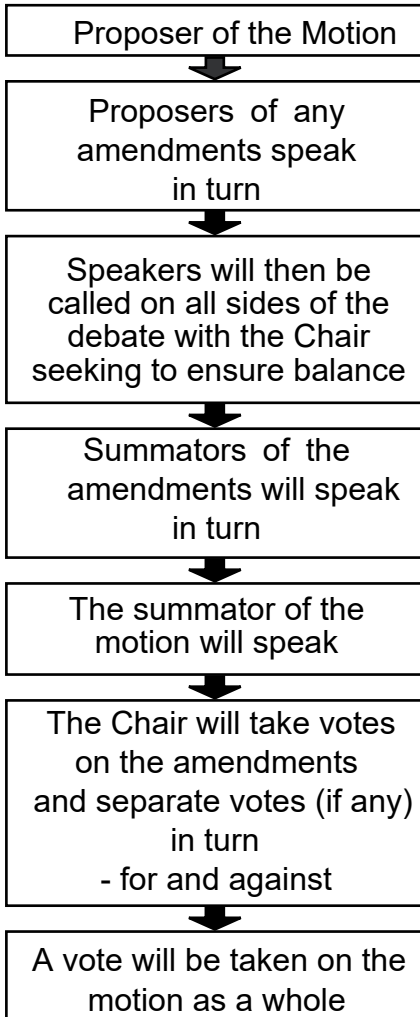

Completing Speakers Cards

There are three key points to remember to maximise your chances of being called:

1. Submit your card well in advance. If you hand your card in late, in a popular debate you're virtually guaranteeing you won't be called. The chairing team for the debate always meet well in advance to plan the debate.
2. Fill in your card completely. The second major mistake potential speakers make is not to fill in all the information on the card (name, local party, for or against the motion, etc.). These sections are needed for the chair and aide to balance the debate – to make sure that people with relevant experience are called, and to make sure that they don't call a whole string of people who'll make the same point.
3. Make sure it's readable! Don't take this as an invitation to fill every square centimetre of the card; and don't write illegibly, or in very small letters, or in green ink ... the easier you make it for the chair to read your card the more likely you are to be called.

Order of Debate, and Voting

Motions will generally be considered in the following way:

Only Voting Members will be able to vote. Voting Members will have "Voting" on the back of their Conference Badge.

If you are a Voting Member and wish to vote in a debate you must be in the Conference Hall by the end of the speech by the summator of the motion as no-one will be allowed to enter the hall once the voting has started.

To vote, you should be seated and hold your Conference Badge in the air, with the "Voting" side facing the Chair.

Please follow the instructions of the Chair on when to vote. You may be asked to keep your Conference Badge in the air for a long time to ensure that all the votes can be counted.

Decisions on the motion and amendments are by simple majority of those voting.

Procedural Motions

Procedural motions concern the procedure by which conference operates.

Reference Back - to stop debate on a Motion and send the Motion to a specified body for more work

Next Business - to stop debate and move to the next item of business on the agenda.

Suspension of Standing Orders - to lift one or more of the rules governing the operation of conference.

Procedural Motions may be submitted by any voting member in writing together with a statement of reasons of 75 words or less.

Votes will be taken in the same way as for Motions and Amendments, except that there is no cut off point for being in the Conference Hall for the vote on whether to have a mini-debate.

Decisions on procedural motions are made by simple majority of those voting.

Procedural motions are usually considered in the following way:

Any Voting Member can propose a procedural motion in writing before the end of a debate on a motion

The Chair reads out the written statement in support of the procedural motion

A vote will be taken on whether there will be a mini-debate on the procedural motion

If the decision is to have a mini-debate:

The mover of the procedural motion may speak

Someone to oppose the procedural motion may speak

Other speakers may be called to speak

A vote will be taken on the procedural motion

PM 1: Students and the Local Community

Submitted by IR Cymru

Conference notes:

1. The positive impact of students and universities on the local economy.
2. The transient nature of student communities.
3. The tensions that can arise between long-term residents and the changing student population.

Conference believes:

4. Collaboration between groups leads to the most effective and sustainable solutions to the issues and challenges transient communities face.
5. That it is the responsibility of students, landlords, and local authorities to keep the local areas tidy.
6. More can and should be done to improve community relations between long-term and student residents.

Conference calls for:

Local authorities to work with students unions and universities on a variety of projects including:

- a. Creating an information pack for students and landlords detailing what resources are available to them within the community. This can include material and adverts from local businesses and groups, guidance on contacting the council, guidance around bin collection and local events.
- b. Informing students of their rights as renters through online materials and workshops..
- c. Run community building projects such as Cardiff Digs and Love Bangor.
- d. Promote and work with Communities 1st and similar groups to recognise work done by students in the local community through the use of Higher Education Achievement Report or other award scheme

PM 2: Standing up for our local communities: 2017 Local Government Manifesto

National Policy Committee

Conference Notes:

- All council seats in Wales face election in May 2017.
- The financial pressures faced by local government and the challenge of maintaining and improving appropriate public services.
- The impact of Britain's departure from the EU on our economy.
- The widespread disconnection of the public from all levels of government, the unrepresentative demographic profile of councillors, low turnouts in elections, and the arrogant attitude of some councils in Wales towards transparency and accountability.
- The recent manifesto for the National Assembly for Wales elections 2016, which included many policies for and regarding local government.

Conference believes that Welsh Liberal Democrats should promote a flourishing system of democratic local government, which empowers communities and in which power should be exercised at the most viable local level compatible with effective action and democratic control.

**Conference calls for a manifesto which:
Empowers people and communities by**

1. Campaigning for the devolution of power from Cardiff Bay to the hands of local communities, giving local government responsibility for areas such as economic development and community regeneration.
2. Meaningfully devolving power and responsibility from local authorities to community councils, where appropriate, so communities can set their own destiny.
3. Rebuilding trust in our democracy by campaigning to introduce STV and votes at 16 for local government elections, and ending the era of excessive six-figure 'goldengoodbyes'.

Creates prosperous communities by

4. Regenerating town centres by introducing measures to support SMEs, including investing in digital infrastructure, town centre parking, and local transport.
5. Calling for the introduction of Regional Passenger Transport Authorities to localise decision making to ensure accessible, affordable and reliable transport.
6. Encouraging Local Councils to collaborate on delivering more coordinated public transport to better serve local communities.
7. Investing in the maintenance of our highways and pavements, including cycle routes.
8. Investing in the digital connectivity of our communities, including mobile phone signal and broadband to support homes, businesses, and tourism.

Values Homes by

9. Delivering 20,000 new affordable homes across Wales over the course of the Assembly term.
10. Introducing a Rent to Own model to give everyone an equal opportunity to own their own home.
11. Ensuring new social housing is built to meet the Welsh Housing Quality Standard and that at least 10% are built to full wheelchair accessibility standards.
12. Ensuring all councils have an accessible housing register, so they know where their wheelchair accessible, adaptable and adapted homes are, and how many they have.
13. Improve the enforcement of standards in the Private Rented Sector to ensure better housing quality for renters.

Ensures dignity in care by

14. Introducing and supporting measures to bring frontline health and social care services together, to give patients the best possible care at the most appropriate time.
15. Ensuring that local authorities are no longer using fifteen minutes for care slots and fast-tracking applications for social care for terminally-ill people, their families and carers.

16. Developing social prescribing and ‘insulation on prescription’ to link up the NHS with the fuel poverty agenda and other schemes.

Promotes a national mission of education reform by

17. Extending the Welsh Pupil Premium to support our most disadvantaged pupils.
18. Reducing infant class sizes to give teachers the time to focus on a child’s individual needs.
19. Supporting the introduction of a new education Leadership Academy to recognise and promote teaching excellence.
20. Introducing Wales’ first ever rural and small schools policy to raise standards in all of our schools, no matter where they are based, and ensuring all schools get a fair hearing when their future is being considered.
21. Supporting the development of a new curriculum, made in Wales but shaped by the best from around the world.

Protects our environment by

22. Supporting co-operatives to develop renewable energy projects in or on suitable publicly owned buildings and land, where practicable.
23. Investing in and protecting recycling centres to enable Local Authorities to meet recycling targets.
24. Supporting the development of community-based energy efficiency advice and mentoring schemes, especially in areas of significant fuel poverty.
25. Upgrading all council-owned buildings to improve energy efficiency and reduce energy waste, and investing in low or zero carbon technologies in buildings.

Strengthens our communities by

26. Rolling out 20mph zones in residential areas where there is community demand.
27. Ensuring a more thorough assessment of community need in any planning decision.

Motions

28. Establishing an Asset Transfer Advisory Committee in each local council area to protect local community assets such as libraries and community centres.
29. Calling for the development of the Community Budgets model in Wales to combine services, encouraging the breaking down of boundaries between different services.

Promotes the Welsh language and culture by

30. Supporting affordable housing in rural Welsh-speaking areas, ensuring young people can stay and support their communities.
31. Supporting calls for language impact assessments for proposed developments a statutory requirement before planning permission is granted.
32. Protecting the cultural infrastructure and organisations, including sport, leisure provision and youth provision.
33. Campaign for VAT on tourism to be cut from 20% to 5% to boost local economies and create jobs.

Conference notes the key message of the Welsh Liberal Democrats' 2017 campaign will be;

- Growing local and regional economies for the benefit of all.
- Investing in our communities.
- Delivering our national mission of educational reform.
- Reforming and restoring trust in our democracy.
- Rejecting business as usual and the complacency, favouritism and lack of vision of many of Wales' councils and councillors.

Conference also calls on the National Policy Committee to work with local parties and council groups to support them in drafting local manifestos ahead of the local government elections in May 2017.

PM 3: Right to Buy

Cardiff and the Vale Liberal Democrats

Conference notes:

1. The Welsh Labour manifesto commitment to remove the right of long term tenants to buy their homes.
2. The dramatic reduction in Right to Buy applications over many years with only 638 homes sold in 2015-16.
3. That in 2015/16 the number of social houses increased by 0.2% with 1,143 new homes built (a net increase of 374 when the house sales were taken into account)
4. That successive Welsh Governments have reduced the Right to Buy discount so that is now up to £8,000
5. Changes to the rules on Housing Revenue Accounts will make give local authorities far greater power to invest in new homes.

Conferences believes:

6. That having the right to own your own home is a long standing liberal principle, but it should not come at the expense of society through huge subsidies.
7. That the discounts introduced by the Thatcher government were excessive and saw thousands of homes sold at huge discounts with local authorities not able to build replacement homes.
8. That 20,000 new affordable homes should be built during the current Assembly term.
9. That Welsh Labour are focussing on Right to Buy to distract from low numbers of homes built by councils.
10. That if a tenant buys their home then this creates a capital receipt that can be used to build a new home.

Conference calls for:

11. The Welsh Government to scrap the remaining Right to Buy and Right to Acquire discount so that tenants looking to buy their homes pay 100% of the market value
12. The Welsh Government to abandon their plans to scrap the right to buy
13. Local authorities and housing associations to use right to buy proceeds to invest in more social housing.

PM 4: Community Banking in Wales

South Wales East Valleys LD

Conference Notes:

1. Between January 2015 and January 2017 1,046 bank branches closed across Great Britain. (Which?, 2016).
2. Between April 2011 and April 2016 131 bank branches had closed in Wales (BBC, 2016).
3. Although changing customer behaviours is often cited as a reason for bank branch closures, only 56% of bank account holders use Internet banking according to Government figures. (Which?, 2016).
4. Post Offices have taken a far greater role in providing banking facilities (both personal and business) to communities where banks have closed. However, even Post Offices are under threat of closure in smaller communities.
5. In January 2016 the Department for Work and Pensions wrote to claimants who used post office card accounts to encourage them to move their benefits payments to a bank, building society or credit union account.
6. The main banks are Public Limited Companies, and whilst they do provide an essential service to the public, this is not a public service.

Conference Believes:

7. It is essential that members of the public and businesses have easy access to basic banking facilities such as cash withdrawal, paying-in, and getting change.
8. Whilst regulation of financial services is essential to protect the consumer, it would not be appropriate for legislation to be imposed on banks to force them to keep bank branches open.

9. The number of consumers using their local branches has reduced significantly over the last 10 years due to the take up of Internet, telephone and mobile banking. However, there are still those that do not have such facilities available to them or unable to use the facilities and are therefore digitally excluded from banking.

Conference calls for:

10. Unitary Authorities such as councils to provide secure Internet banking facilities through libraries so as to help reduce digital exclusion from banking.
11. The Digital Communities Wales programme to be extended to include training on digital banking facilities. Local Authorities should be engaged to provide training through the programme.
12. Post Office franchisees to be able to claim a rebate on their business rates, the amount of the rebate being dependent on the turnover of the business, where Post Offices are franchised to small businesses and there are no banks within the local community.
13. Unitary Authorities to be allowed to take on the activities of the Post Office franchise through secure cash office facilities where there is neither a Post Office nor a bank within a community.

PM 5: The UK's future relationship with the EU
National Policy Committee

Having regard to:

1. the narrow majority for 'Leave' in the EU referendum;
2. the need to respect that majority and the views which led up to it;
3. the multiplicity of beneficial outcomes from Brexit then suggested to the electorate;
4. the limited two-year negotiating period after Article 50 is triggered.

Notes with concern that:

5. the UK Government has ruled out membership of the Single Market or the Customs Union and ignored the statements by the leaders of major EU member states that the UK cannot 'pick and choose' among the benefits of membership while discarding the obligations;
6. Wales is a major beneficiary of EU funding, especially for capital investment, which it will lose when the UK leaves the EU;
7. Welsh industry, agriculture, universities and other sectors will lose the advantages of EU membership with no simultaneous counterbalancing growth of revenues and opportunities;
8. the people of Wales, notably our young people, will lose their rights as EU citizens to travel, study, live and work anywhere in the EU;
9. EU citizens living in and contributing to communities in Wales lack assurance of their right to remain after Brexit, as do UK citizens living in other member states;
10. the UK will lose its influential place at the EU's law-making tables but its businesses and people will be required to comply with much EU legislation in order to trade with or travel within the EU, adding cost and complication where today there is none.

Calls upon the UK Government:

11. to fully inform Parliament of its specific negotiating aims and keep it informed about the progress of negotiations;
12. to reconsider its 'hard Brexit' stance and seek to minimise the losses and risks to the UK economy, including the especially damaging impacts on Wales;
13. to follow the democratic logic of June's referendum, which asked voters to decide whether to negotiate terms of exit from the EU, by holding a referendum before leaving, so enabling people to decide whether to go ahead on the emerging terms or to retain the UK's position as one of the most influential members of the EU.

Calls upon the Welsh Government, at all stages in the negotiations, to present a well-informed case to the UK Government representing the specific interests of Wales, and to maximise the role of the Assembly in the decision-making process.

BM 1: The Welsh Lib Dems Governance Review
National Executive Committee

Conference notes that:

1. Following the disappointing result of the 2016 Welsh Assembly elections, the Welsh Party has significantly changed its staffing arrangements leading to new ways of working.
2. In Autumn 2016, the Federal Party completed a Governance Review and implemented several changes to their organisational structure and ways of undertaking party business.
3. A discussion on the Federal Governance Review made at the Welsh Lib Dem Conference in Autumn 2016 began the process of consulting on constitutional review in the Welsh Party.
4. The Constitutional Review Panel (CRP) have taken several steps towards commencing changes to the constitution but progress has been slow. In particular, a governance review and change is a challenging and time consuming task.

Conference believes that:

5. The loss of party staff since the 2016 Welsh Assembly elections means that the Welsh Party has placed greater expectations on the contribution of members and volunteers, therefore the party's organisational and governance structure needs to change to reflect this.
6. It is a widely accepted view that the Welsh Party Constitution needs to be reviewed in its entirety, including arrangements for the governance of the party.
7. The Welsh Party's organisational structure needs to reflect and align with changes within the Federal Party after implementation of governance changes.
8. It is desirable that a dedicated and informed project team is established to undertake consultation with members, and others with a vested interest, and then recommend changes to the governance arrangements of the Welsh Party.

Conference resolves that:

9. A Governance Task Force (GTF) of no more than 8 members shall be established to undertake consultation, evaluate the findings and then make recommendations for changes to governance within the Welsh Party. The report will go to the CRP for consideration and subsequent implementation as amendments to the constitution.
10. The GTF shall draw upon relevant expertise and experience from the wider party membership, as appropriate.
11. Members of the GTF shall include at least one member of NEC and one member of FMC. A call for expressions of interest shall be made to the Welsh Party membership through the party website following acceptance of this motion, and such expressions of interest shall be directed to the party president. Responsibility for establishing the team and its terms of reference will reside with the NEC representative in collaboration with the party president.
12. The CRP shall, from time to time, indicate specific areas that it feels need to be addressed more urgently. These areas currently include: a. The reporting and accountability of the committees and their relationship with NEC. b. The disciplinary process.
13. The GTF shall provide regular progress reports to CRP (as well as NEC and FMC) and will bring a preliminary report to Welsh Party Conference in Autumn 2017.
14. A revised organisational structure shall be brought to Welsh Party conference for amendment and/or approval in Spring 2018 for subsequent transitional implementation.
15. The committees shall then have at least 6 months of transitional operation under a new structure before they are up for re-election in Autumn 2018.

The GTF shall concentrate on formation and undertaking its activities after May 2017 to allow party members to focus on Local Government elections in Wales.

PM 5: Perthynas y DU â'r UE yn y Dyfodol

Cyflwynwyd gan: Y Pwyllgor Polisi Cenedlaethol

Gan ystyried:

1. mwyafrif bach y bleidlais 'Gadael' yn y refferendwm ar yr UE;
2. yr angen i barchu'r mwyafrif hwnnw a'r safbwyntiau a arweiniodd ato;
3. y canlyniadau buddiol lluosog a fyddai'n deillio o Brexit a awgrymwyd i'r etholwyr;
4. y cyfnod cyfyngedig o ddwy flynedd i negodi ar ôl tanio Erthygl 50.

Mynega'r Gynhadledd bryder am y canlynol:

5. mae Llywodraeth y DU wedi diystyried y posibilrwydd o aelodaeth o'r Farchnad Sengl neu'r Undeb Tollau ac wedi anwybyddu datganiadau arweinwyr aelod-wladwriaethau mawr yr UE na fydd y DU yn cael 'dewis a dethol' o blith buddion aelodaeth gan hepgor y rhwymedigaethau.
6. mae Cymru'n elwa'n fawr o gyllid yr UE, yn enwedig o ran buddsoddiad cyfalaf, y bydd yn ei golli wrth i'r DU adael yr UE;
7. bydd diwydiant, amaethyddiaeth, prifysgolion a sectorau eraill yng Nghymru yn colli manteision aelodaeth o'r UE heb unrhyw gynnydd o ran referniw a chyfleoedd i wrthbwysu hyn
8. bydd pobl Cymru, ein pobl ifanc yn arbennig, yn colli eu hawliau fel dinasyddion yr UE i deithio, astudio, byw a gweithio mewn unrhyw wlad yn yr UE;
9. nid yw dinasyddion yr UE sy'n byw mewn cymunedau yng Nghymru ac yn cyfrannu atynt wedi derbyn unrhyw sicrwydd o'u

- hawl i aros ar ôl Brexit, ac mae'r un peth yn wir am ddinasyddion y DU sy'n byw mewn aelod-wladwriaethau eraill;
10. bydd y DU yn colli ei lle dylanwadol mewn prosesau llunio deddfwriaeth yr UE, ond bydd yn rhaid i'w busnesau a'i phobl gydymffurfio â llawer o ddeddfwriaeth yr UE er mwyn masnachu gyda'r UE neu deithio o fewn yr UE, gan ychwanegu costau a chymhlethdod lle nad oes dim yn bodoli heddiw.

Mae'r Gynhadledd yn galw ar Lywodraeth y DU:

11. i hysbysu Senedd y DU yn llawn am ei nodau negodi penodol a pharhau i'w hysbysu am gynnydd y cyd-drafodaethau;
12. i ailystyried ei safbwynt 'Brexit caled' a cheisio lleihau'r colledion a'r risgiau i economi'r DU, gan gynnwys yr effeithiau hynod niweidiol ar Gymru;
13. i ddilyn rhesymeg ddemocrataidd refferendwm mis Mehefin a ofynnodd i bleidleiswyr benderfynu a ddylid negodi telerau gadael yr UE, drwy gynnal refferendwm cyn gadael, gan felly alluogi pobl i benderfynu a ddylid bwrw ymlaen ar y telerau sy'n datblygu neu gadw sefyllfa'r DU fel un o aelodau mwyaf dylanwadol yr UE.

Mae'r Gynhadledd yn galw ar Lywodraeth Cymru, ym mhob cam o'r cyd-drafodaethau, i gyflwyno achos gwybodus i Lywodraeth y DU sy'n cynrychioli buddiannau penodol Cymru, ac i uchafu rôl y Cynulliad yn y broses benderfynu.
