Voting

Only registered members can vote at conference. Voting will be available through Hopin and the polling function.

Conference Chat

In each auditorium session there will be a chat feature enabled, which allows attendees to post their views and comments about Events on the Main Stage.

The chat is public and visible to everybody: bear this in mind when posting. All comments in the chat must be respectful, lawful, and in keeping with the Members' Code of Conduct, accessible here:

www.libdems.org.uk/code-of-conduct

The chat will be moderated, and if your post does not meet the required standards of behaviour, sanctions start with post deletion, and more serious breaches may lead to you having your conference privileges revoked.

If you are part of the Conference Programme and are speaking

Here's what you need to do to make sure everything goes seamlessly.

You will need the link to Backstage - this is a dedicated place where you meet before going live and start sharing your presentation. This will have been emailed to you prior to the start of Conference.

Backstage/Stage

- When it's time for your presentation, head to the backstage with the link provided to you by the Organizer of the event.
- Click *Ask to Share Audio and Video* at centre of the Backstage screen
- You'll need to give browser permissions to use your camera and mic
- The Organizer receives your request to participate and once approved, you will appear on the Backstage screen with video and audio on

Note: Currently you are not live yet and the event attendees cannot see you at the moment. This is the perfect time and place to run final checks. Once all is set, the Organizer will click Broadcast and you will be live within 15 seconds.

Use the *Backstage Chat* tab to let the Organizer know you're there or in case toggled to Backstage, otherwise the full event will see your message.

Tip: While participating on the Backstage, you can turn off your camera and mic using the controls at the bottom of your screen. This will make you disappear from the event Stage for attendees completely, even though your gray avatar is still showing in the Backstage. It's a sneaky way to transition smoothly between speakers.
