

Plain Text Manifesto – Jack Worrall and Callum Robertson for Young Liberals Chair

About us:

Jack Worrall

Outgoing English Young Liberal Chair and previous Vice-Chair of YL. He has represented the Young Liberals the English Council Executive where he managed a £4000 increase to YL's budget. He has empowered the regions to take a larger role within EYL and encouraged EYLers to stand for English Party positions. In his spare time he likes to play darts.

Callum Robertson

Currently the Regional Policy Chair for the East of England and a Member of the English Candidates Committee, the previous East of England YL Chair and GE2019 candidate. He has secured significant funding for young people to stand in his region. He has made key decisions for manifestos for local elections and secured self-ID of protected characteristics in parliamentary selections in England. In his spare time, he enjoys skiing, sailing and reading.

Our Plan:

Professionalise

Engage on all levels – local, regional, state and federal

Improve Relations in the Party – Protect the Young Liberals seat on the Federal Board steering group, help push through changes to YL's upper age limit from 26-30, develop good relations with HQ and key party stakeholders and be active in the discussions about how our party is organized.

Organise

Get YLers elected – Engage with the relevant officer, regions, local parties and ALDC in order to get members approved and selected to stand as candidates

Improve our influence in the Party – Develop a strategy for internal elections specifically focusing on the immediate State, Regional and Local Party elections with a view to the 2022 Federal Elections

Inform

A More Informed and Diverse YL – Build a communication strategy with regular articles on popular Lib Dem blogs, regular usage of email, YL website and Facebook to build awareness of the executive's work. Implement the YL diversity review.

An accessible executive – Host regular Zoom drop-in sessions for questioning on YL matters and add branch chairs to the YL Slack.
