“I’m standing for campaigns committee, because I want to bring my experience, passion and dedication to a really important role in the Young Liberals

My goal is to make sure that Young Liberal campaigns reach as many young people across the country as we can, not just those in established university societies”

A Record of experience

- Previously ran a campaign aimed at more than 1.7 million people
- Campaigned in both Labour and Tory facing seats
- Played a key part in identifying target areas and helped campaign for these in my constituency
- Ran social media and digital campaigns including video editing in two target seats
- Have had articles published about the campaign for Universal Basic Income and for Fair Housing Reform

A Promise of Action

- Expand the establishment of new university societies across the country
- Reaching out to younger people who aren’t in full time education – and making sure our campaigns are relevant to them
- Working with the federal, and national parties to ensure that issues of inter-generational justice are raised and promoted at every level
- Be your voice on the committee with regular reports back to you. I’ll be accountable to you.
